

Hemp Flower, CBN Gummies & More In Stock At The Farmacy Botanical Shoppe

December 16, 2022

San Antonio, Texas - December 16, 2022 - PRESSADVANTAGE -

The Farmacy Botanical Shoppe, based in San Antonio, TX, announces their fresh new stock of Texas-grown hemp flower. Two strains are currently available: Orange Glaze (indica) and Pink Panther (sativa). The company is pleased to offer these two new strains that were grown on the urban hemp farm in San Antonio where their retail store is located, just steps outside the store's front door. Anyone interested in learning more about this CBD hemp flower can visit the company's website.

As the only CBD store in San Antonio to offer hemp flower grown on a local urban hemp farm, The Farmacy Botanical Shoppe is inviting hemp enthusiasts to visit the "bud bar" at their retail store to see, smell and purchase buds from these two new strains. Consumers can also purchase the flower on the company's website for either same-day local delivery or nationwide shipping.

This is not the only way a customer can try out the flower, however. The Farmacy Botanical Shoppe began hosting a bi-weekly Adult D8 Night earlier this year as a way for the community to enjoy CBD and THC drinks and products in a welcoming environment, along with live music, food, vendors and lawn games. The company hosted their final Adult D8 Night event on 12/9 and will return with more events in the Spring of

2023. Those who attend future events can purchase and consume hemp products onsite during the event, including flower. The Farmacy Botanical Shoppe sells hemp flower in quantities from 2 grams up to 1 ounce, with some strains having limited quantities.

The CBD store in San Antonio is notable for both its exemplary products as well as its commitment to great customer service, as many in the community will attest. P. Dan shares in a brief review, "Farmacy Botanical give[s] their customers the best customer service, they have great and quality products and the fastest delivery that I've ever had. I placed an order today, and within 20 minutes they delivered the merchandise to my house. That's exceptional customer service, you won't get that type of customer service from any other business."

In addition to respecting their customers' time and hard-earned money, the store recognizes that each individual will have their own preferences and goals when they start shopping for CBD products. Staff at The Farmacy Botanical Shoppe take the time to educate and guide customers through their products, thereby enabling them to choose the product that best fits their individual needs.

This level of service and focus on customer satisfaction has gained the company loyal fans like Shelly M., who states "Their product knowledge & product variety is wide and the multiple benefits of partaking in such are wider yet! I'm especially grateful to now have a homeopathic source of pain management."

Customers will find an impressive selection of items on offer at The Farmacy Botanical Shoppe. In addition to the two strains of flower that were grown on the onsite hemp farm, the store also offers CBN gummies, CBD and THC beverages (which are available during Adult D8 Night events), vegan CBD products, CBD topicals and even CBD products for pets. For the convenience and safety of their customers, the company provides same-day delivery in San Antonio as well as in-store pickups. They also ship their CBD products nationwide.

Full access to the store's inventory can be found on their website and interested parties may sign up for The Farmacy Botanical Shoppe's newsletter to stay updated on the company's newest products and specials. All are welcome to visit the store in person as well for a more curated shopping experience.
