SuperGreen Solutions Announces Launch of Solar Installation Referral App

November 30, 2022

Bel Air, Maryland - November 30, 2022 -
SuperGreen Solutions, a national solar panel franchise, is thrilled to unveil its very expected referral app, which will certainly enable our customers, other local business owners, and the general public to make $1,000 for every recommendation that contracts their solar installation with SuperGreen Solutions.

The SuperGreen Solutions app is free to download and install and is available in both the Apple AppStore and Google Play.

Daniel Dubell, CEO of SuperGreen Solutions, commented: "The launch of our Referral App is significant for our company as well as the environment. This incredibly simplified tool permits good friends, households, various other company owners as well as the public to be compensated financially for assisting us to get the word out about solar and various other green technologies for consumers."

Within the app, there are several sources to assist take full advantage of recommendation revenues such as training videos, simple social media sharing capabilities, QR codes for in-person sharing, and extra.

SuperGreen Solutions' Referral App not only allows users to make some extra money on the side but also helps them be more environmentally conscious. Every referral that contracts leads to a decrease in carbon emissions, making our planet cleaner and healthier.

"We are so excited to be able to offer this new app, as it is yet another way for everyday people to help reduce their carbon footprints while also making some extra cash," states Dubell.

When a user downloads the application, they promptly come to be an advocate (referral partner) as well as obtain accessibility to an individualized dashboard. There, users can add their references, quickly track referral progression, as well as view revenues. Users of the app will instantly be informed each time their

referrals move from phase to phase throughout the solar contracting and track that in the dashboard under "Referrals". When a referral goes solar (contracts with SuperGreen Solutions and completes solar panel installation), advocates can select from several payout alternatives such as financial institution direct payment, Visa Gift Card, or a wide variety of other gift card choices.

By using the SuperGreen Solutions Referral App, consumers can help spread the word about solar energy and other green technologies while making some extra cash at the same time. It is a win-win situation for everyone.

For more information about the application, interested parties are encouraged to visit their website: https://supergreensolutions.com/supergreen-referral/.
