

Tulsa Premier Outdoor Lighting Company Shares Information About Holiday Lighting

December 08, 2022

December 08, 2022 - PRESSADVANTAGE -

Bling! Premier Lighting, a Broken Arrow, Oklahoma based lighting company, is reaching out to share information about their holiday lighting products. Bling! has established itself as a premier provider of light design and installation services in cities throughout the region.

A representative for Bling! says, "With Christmas season fast approaching, you might be thinking about ways to add an extra splash of color to your Christmas celebrations, and a beautiful lighting installation is an excellent option. When it comes to lighting installations, you can trust that Bling! has you covered. Whether you just want to get fancy for the holiday season or whether you are looking to install atmospheric lights for your backyard, we have a lighting solution that will elevate the celebration and add a familiar warmth to your surroundings."

Bling! boasts experience with professional lighting that brings every holiday to life. They have worked with customers who want lighting installations for Halloween, Fourth of July, Valentine's Day, Hanukkah, Christmas and more. The company is proud to confirm that every Bling! lighting project follows a detailed and efficient scope to ensure that their client's needs are being met while the work is done right the first time

? from consultation to installation.

The process used by the Tulsa premier outdoor lighting company has six simple steps. The first involves a design consultation, which can be done virtually or on location, where a Blingle design specialist will provide the client with a digital, visualized representation of the property to see how the finished installation could look before they formally commit to the work. Then, there will be a computer based lighting demo (before a written proposal is provided). Once the proposal has been agreed upon, the company will send the clients a formal contract agreement and schedule the installation. The company assures that they do their absolute best to work around their clients' schedule. The final step is installation. The company will also assist with taking the lighting installation down, and in cases of long-term installations, Blingle also provides maintenance services.

The company's representative says, "When you work with us, you can rest assured that your dream lighting installation will be realized. Our design experts have been doing this for a while and are able to guide you in the selection of lighting that is a perfect compliment to your home or event. Blingle utilizes visualization technology so you can see what your project could look like and give you the ability to customize with extensive options. Just get in touch with us today, schedule a free consultation, and we'll get started!?"

The high quality lighting services provided by the company has earned them great praise from homeowners all over the region. In his review, Jeremy Zeigler writes, "Ethan from Blingle came out and gave us a quote this last November. He was great at hearing what we wanted and recommended some things for us. Everything turned out great and looked great. We didn't have any problems with any of the lights, and we live on top of a hill so it's pretty windy all the time in the winter. They came out and took everything down in January. Very happy with everything and will definitely be using them this Christmas season!?"

In another review, Weysan Dun writes, "Our HOA used Blingle to decorate our neighborhood's main entrance and were very happy with the service and professionalism. Blingle's designers came up with a lighting package that perfectly captured the character of the neighborhood. We received numerous compliments about the lighting. Blingle was prompt and timely with installation and removal of the lights. When an animal chewed through one of the lighting cables, Blingle responded the day we called and had the lights back on that evening."

Those who want to learn more about Blingle Premier Lighting and the full range of the products and services provided by the company should visit their official website. The company encourages interested parties to get in touch with a representative via phone for any questions or clarifications. Blingle also maintains a social media presence on Facebook, Instagram, YouTube and LinkedIn.
