December 01, 2022 -
LEAD Conveyancing Frankston, a conveyancing firm in Melbourne, Victoria, announced that they have recently registered with Trustpilot to receive feedback from several customer review sites. The popular online review website is the second review platform the company joined; the other one is Google My Business. For more information about LEAD Conveyancing Frankston, visit their official website.

The company?s reason for signing up with another online review platform is to acquire different opinions from various review websites to know what aspects of their business should be improved. For them, joining as many online review platforms as possible is an easy yet effective way of improving their business. They plan on signing up with other review platforms in the future.

One of the reviews they received from Trustpilot was from a client named Jen A., saying, ?Great work LEAD Conveyancing Frankston! My experience with my recent property sale was stress-free and could not have gone any smoother. A big thank you to Mark; he was so professional and efficient. He went above and

beyond to make this an easy transaction for me. During the process, he was always available, kept me in the loop and answered all my questions. I highly recommend this firm. A professional service from start to finish.?

Trinh Thai, Legal Director and Conveyancer of LEAD Conveyancing Frankston, expressed her reaction to receiving positive feedback from both online review platforms they registered. ?It is good to know that, like GMB, the feedback we receive from Trustpilot also benefits our company. We thought the reviews we acquired from Trustpilot would not be as good as the ones we have in GMB. It has a good start, and we want to keep it that way. We will do our best to keep it that way. Positive feedback is one of the reasons we should always give our all in every transaction we take.?

The firm has already received three reviews from Trustpilot for a short period. Trustpilot is a community-driven online customer review platform based in Denmark. It has state-of-the-art SEO features to help websites rank higher on Search Engine Results Pages (SERPs). It is one of the well-established and biggest online review platforms, with more than 500,000 websites rated daily, an indicator that it is good to have it on someone?s business.
