NYC domestic violence divorce lawyer Ryan Besinque (<https://www.besinquelaw.com/domestic-violence-divorce-attorney/>) releases a new article that explains the grounds for divorce according to New York courts. According to statistics, domestic violence affects about a third of women and around a fourth of men. This is currently an unfortunate reality in the USA.

According to the NYC domestic violence divorce lawyer, "Emotional abuse, including verbal threats, degrading remarks, or controlling behavior, is even more common. If you are considering filing for divorce from an abusive spouse, it is critical to get help.?"

According to the lawyer, divorcing an abusive spouse can be a dangerous process and could lead to unique problems. New York courts are very sensitive to domestic violence. Before divorcing an abusive partner, it is highly recommended that the person should seek shelter and legal protection.

Attorney Ryan Besinque says victims of domestic violence can seek shelter if they are in danger from an ex-spouse. The victim will then need to apply for protection orders. A protection order provides legal protection to victims and allows them to seek a permanent solution to their cases.

In the article, the lawyer mentions that an order of protection can also be called either a restraining order or protective order. These orders can be issued either by a civil court or a criminal court. A protection order can be used to prohibit contact between spouses or their children. Violations of this order can lead to severe consequences.

Attorney Besinque also lists the different types of domestic violence in New York. These include physical and sexual abuse, threats, humiliation, economic abuse, as well as threats. The lawyer said that although domestic violence is more common in women than in men, it can still happen.

Lastly, the lawyer emphasizes the importance of seeking the guidance of a skilled domestic violence divorce lawyer. Having an experienced lawyer may be able to help the client ensure that all measures will be taken in order to protect them while they remove themselves from an abusive situation.
