# EMS Announces that Its ISO Agent Program Is Now Available in Maryland

*December 09, 2022*

Cleveland, Ohio - December 09, 2022 -
Cleveland, OH-based Electronic Merchant Systems (EMS) has been providing innovative, cost-effective payment processing services across the country for over 30 years. This includes in-store and online payment processing solutions for both large and small businesses. EMS is looking for motivated merchant services agents wanting to reach new verticals and diversify their merchant portfolio in Maryland. This comes after their recent announcement about its ISO Agent Program in Kansas.

A spokesperson for Electronic Merchant Systems says, "The demand for payment processing services in Maryland is growing, and we want to equip merchant services agents with what they need to be successful. One of the ways we can help Agents grow their business is with our innovative payment processing products and services."

Among the popular payment processing solutions that EMS ISO Agents will offer merchants include virtual payment terminals, online payment gateways, and many point-of-sale credit card terminal choices. These products and services can help Agents be at the forefront of the payments industry.

EMS has always put its credit card processing agents first by helping them get into more verticals, offering transparent residual reports, and access to an industry-leading product suite. The company spokesperson added, "As an EMS Agent, you'll always know exactly what you're earning with our transparent reporting. And, with a dedicated relationship manager, if you have any questions, you'll get a response by the end of the day. No more losing deals because you didn't get a timely response." Those that want to learn more about being an Electronic Merchant Systems Agent in Maryland can find out more at the following link https://www.emscorporate.com/iso-agent/md.

Another significant benefit that ISO Agents will have access to when partnering with EMS is the fastest approval process in the industry.

As the home of the 10-Minute MID, EMS can help Agents close more deals with merchants. This allows Agents to maximize their residual portfolio.

In addition to its fast approval process, EMS has more sponsor banks than other programs. This allows Agents to get deals done quickly and get into challenging verticals that were once off-limits. With EMS, Agents can reach merchants in emerging categories that they couldn't before.

EMS has been helping Agents for over 30 years to be leaders in the merchant services industry. Their program puts Agents first to ensure they have what they need to succeed.

With the ability to get into more verticals, the fastest merchant approval process, and payment processing products designed to sell, the EMS Agent Program allows Agents to be leaders in their field.

Those interested in partnering with the EMS Agent Program can contact the company by phone or email.
