

Restaurant Supplies Online Announces New Imported Table Tops

November 24, 2015

November 24, 2015 -
Restaurant & Cafe Supplies Online, which is located in Pacoima, CA, is proud to announce the addition of their first imported reclaimed wood table top to their offerings. The new table tops are sold through the company's website and will be available beginning December 5, 2015.

The company is currently taking orders for the table top and expects to begin shipping as soon as they become available.

"We know this is going to be a very popular table top," says Doug Stoutenburg, founder of Restaurant & Cafe Supplies Online. "It is made from stunning reclaimed wood, specifically spruce, pine and fir. It will be available in a number of different sizes. We encourage people to place their orders now, because we will have to restock these table tops."

Each table top is around 1.5 inches thick and has a cabinet grade plywood backing. This gives it extra stability. The table tops also comes with a water based urethane matte finish. It is not recommended for outdoor use, however.

The restaurant supplies online provider notes that because these new table tops are imported, that it will take much longer to get new stock. It can take as much as 12 weeks to get new inventory when they sell out, which is expected. Customers who want these new imported table tops, but aren't able to get them on the first shipment will either have wait for new stock to arrive, or they can choose the American MAAD version instead. The company's American MAAD line provides similar table tops, but they are more readily available, being made in the USA.

To date, Restaurant & Cafe Supplies Online has released a huge number of tables and table tops for restaurants that their customers have loved. In so doing, they have built a name for themselves as being one of the best suppliers around. "The table tops we ordered from RC Supplies were absolutely stunning," says a restaurant owner in Los Angeles, CA. "They really helped to create the right atmosphere in our establishment. Most importantly, the tables were of fantastic quality and clearly built to last, and the customer service we were provided with was out of this world."

Interested customers are encouraged to visit the company's website on rcsuppliesonline.com as soon as possible to place an order for the new table tops. Special order sizes and other requests are only available for those who order at least 100 pieces and are willing to wait for the 12 weeks delivery time.
