Utah Divorce Attorney Firm Wins 2022 Awards from Salt Lake Tribune Newspaper

December 09, 2022

December 09, 2022 - PRESSADVANTAGE -

Ascent Law LLC, a law firm based in West Jordan, UT, is proud to announce that they have recently received 2022 "Best of Salt Lake" awards from the Salt Lake Tribune newspaper. This firm offers the services of a divorce lawyer and other attorneys specializing on family law, real estate law, bankruptcy law, and more. Those who are in need of a divorce lawyer in West Jordan and surrounding areas can request for a free consultation. They have a number of divorce lawyers who are ready to provide a consultation free of charge.

Michael R. Anderson, Esq., one of the lawyers at Ascent Law, says, "People who want a lot of bull go to a butcher. People who want results navigating a complex legal field go to a lawyer that they can trust. That's where I come in. I am Michael Anderson, an Attorney in the Salt Lake area focusing on the needs of the Average Joe wanting a better life for him and his family. We're lawyers you can trust and our recent "Best of Salt Lake" awards is proof of that."

The divorce attorneys at Ascent Law, such as Michael Anderson, are ready to answer queries about family

law, such as alimony, child custody, child support payments, paternity laws, and more. They fully understand that many people who are facing a family law issue are in one of the most difficult situations they have faced up to this point in their lives. Thus they will always do their best to resolve all cases in the most cost effective, expedient, and amicable ways. They offer compassionate representation and truly act as a "counselor" for the client.

Michael Anderson says, "Divorce and all legal issues associated with this pivotal life event can be resolved through negotiation, mediation and dynamic representation in trial. Legal elements connected to divorce include custody, visitation and asset and property division. Family law is a legal practice area that focuses on issues involving family relationships, such as adoption, divorce, and child custody, among others."

Divorce lawyers and family law attorneys can represent clients in family court or in negotiations and they can also draft various important legal documents, such as property agreements or court petitions. Some family law attorneys will even focus on adoption, paternity, emancipation, or other issues that are not usually related to divorce.

It should be noted that by 1987, all 50 US states had adopted the no-fault divorce concept, exclusively or as an option to the conventional fault-based divorce. No-fault divorce allows divorce to be granted on grounds such as irreconcilable differences, an irretrievable breakdown of the marriage relationship, or incompatibility. With this concept, the court will take a look at the condition of the marriage instead of the question on whether either party is at fault. This kind of proceeding avoids the need for one party to accuse the other of a traditional ground for divorce, such as adultery, alcoholism, cruelty, or drug addiction. This paved the way for a fast and inexpensive way of dissolving a marriage, especially when the couple has no children and moderate property assets.
