New York City uncontested divorce attorney Ryan Besinque (https://www.besinquelaw.com/uncontested-divorce-lawyer-nyc/) explains what uncontested divorce means in New York City. The lawyer mentions that divorce may be a tough time in anyone?s life. However, some couples may be able to minimize the emotional and financial toll of divorce by reaching an agreement by themselves.

According to the New York City uncontested divorce attorney, ?In New York, an uncontested divorce is an option available for couples who are able to work together in order to save money in attorney fees and to bring closure to their divorce in a timely way. When a couple is willing to work together to craft an agreement that is fair to both, a divorce that is uncontested is often the most cost-effective and expeditious option available.?

The lawyer explains that a divorce may be contested or uncontested, but only a few divorces fit into a single

category. There will be times when an uncontested divorce turns into a contested one if there?s a matter that cannot be mutually agreed upon.

Attorney Besinque says that an uncontested divorce is one where both spouses want the divorce and have resolved their issues with minimal legal intervention. In order to finalize the divorce, each spouse will need to agree to the terms of the divorce and file the proper legal documents in court.

In the article, the lawyer explains that there are many manners that need to be decided on during a divorce proceeding. These matters include asset division, custody of the children, child support, and spousal support. A couple may be able to discuss these matters with each other through a mediator.

Lastly, attorney Besinque emphasizes the importance of having a skilled divorce lawyer when going through a divorce process. Having an experienced attorney may be able to help the couple understand their rights and responsibilities in the case. A divorce attorney may also be able to guide the client in making their decisions and help them choose the best option in the case.
