

Client Praises The River Source as One of the Best Treatment Centers Available

December 12, 2022

Arizona City, Arizona - December 12, 2022 -
Arizona City, Arizona ? The comprehensive treatment and compassionate care he received at The River Source inspired one former client to leave an enthusiastic five-star Google review of the drug and alcohol rehab center.

?Absolutely fantastic,? wrote the former client, Jonathan. ?One of the best treatment centers available.?

Jonathan found effective addiction treatment with The River Source?s Reclaim Your Life program, which operates with the singular goal of helping clients discover the best version of themselves. Its integrative approach is clinically based and results-driven, but the treatment team knows real results aren?t possible without honesty, integrity and kindness.

Reclaim Your Life is offered at The River Source?s five fully accredited addiction center locations in Arizona. It provides the entire continuum of care found at traditional centers ? detox, rehab and lifetime alumni

services ? with partial hospitalization and intensive outpatient programs among the treatment options. At The River Source, the difference is in its holistic approach that combines the best naturopathic and conventional therapies for the best treatment outcomes.

The holistic approach heals physically, mentally, emotionally and spiritually. The medical director is a naturopathic doctor who leads treatment teams in guiding clients to long-term recovery by empowering them with the strength, courage, and conviction they need to reclaim their lives.

The River Source still adheres to the best practices of conventional treatment, which is evidence-based and always conducted with the client?s safety and comfort in mind.

One of the features that make The River Source so effective is its Recovery Guarantee: If someone relapses within a year of graduating from the full continuum of care despite following their treatment plan advice, they may return for treatment at no charge.

The guarantee stems from research showing that the longer someone remains in a substance use treatment program, the more successful they will manage their recovery after leaving. The Lifetime Guarantee gives clients an incentive to stay in the program as long as they need ? and because finances are never a barrier to treatment at The River Source, they don?t have to worry about dropping out just because they can?t afford to continue care.

The chance of relapse also increases during detox, the cleansing phase that prepares the body for treatment. It?s easy to give up on this uncomfortable, even painful, experience; depending on the substance that had been abused, side effects can range from nausea and headaches to anxiety, panic attacks and even seizures. For this reason, it should never be attempted without close medical supervision.

At The River Source, side effects are controlled with tools like nutritional IV therapy, medication-assisted treatment and non-traditional approaches such as massage, dry sauna, acupuncture, yoga and meditation. Clients are also allowed to watch TV during detox, which helps to distract them from withdrawal symptoms.

After detox is complete, the work begins. Clients move to inpatient/residential programs, which are separate for men and women. Treatment strategies include group therapy, individual counseling and family therapy; treatment is 12 Step-focused and includes trauma-informed care when appropriate. Other options include a specialized pregnancy track for expectant mothers.

Clients experience treatment in a setting that, while not luxurious, is comfortable. Facilities include fitness equipment, games and recreational activities. Bedrooms have soft, high-quality mattresses, and furnishings are cozy and well-designed. Clients can enjoy movies and TV in relaxing common areas or explore

inspirational trails and a peaceful courtyard outside. The goal is to guide clients to recovery with calm, serene surroundings filled with laughter, fun and fellowship.
