

Brooklyn Workers? Compensation Attorney Samantha Kucher Explains Workers? Compensation in New York

December 20, 2022

December 20, 2022 -

Brooklyn workers? compensation lawyer Samantha Kucher (https://www.rrklawgroup.com/worker-compensation-lawyer/) releases a new article explaining how workers? compensation work in New York. The lawyer mentions that if a loved one has suffered a work-related injury, they may be entitled to workers? compensation.

?Workers' compensation is a form of insurance that provides medical and financial benefits to employees who are injured or become ill as a result of their job. It is designed to protect workers and their families from the financial hardship that can result from an injury or illness,? the Brooklyn workers? compensation lawyer says.

In New York, all employers are required to carry workers' compensation insurance. If you are injured on the job, you should report the injury to your employer as soon as possible. Your employer will then notify their insurance carrier, who will begin the process of determining your eligibility for benefits.

The benefits available through workers' compensation include medical treatment, lost wages, and disability payments. Medical treatment includes all reasonable and necessary medical care related to the injury or illness. Lost wages are paid to cover the income you lose while you are unable to work due to your injury or illness. Disability payments are available if you are unable to work due to your injury or illness.

In the article, attorney Kucher says that some employers may encourage employees to not seek out an attorney. However, the choice is up to the victim. Victims of workplace accidents have the right to legal representation if they have been injured on the job. Hiring a New York City workers? compensation attorney may help ensure that they are receiving the compensation they deserve.

According to the workers' compensation lawyer, ?Injured employees have the right to be compensated for the costs of medical treatment to date, expected future medical treatment including surgery, lost wages, future lost wages, and disability payments if applicable.?

Lastly, the accident lawyer emphasizes the importance of having an experienced workers? compensation lawyer if someone has been a victim of a workplace accident. Having a skilled lawyer may be able to help the victim receive the compensation they deserve.
