New York City uncontested divorce lawyer Ryan Besinque (https://www.besinquelaw.com/do-i-have-to-go-to-court-for-an-uncontested-divorce/) explains what uncontested divorce means in New York City. The lawyer mentions that divorce may be a tough time in anyone?s life. However, some couples may be able to minimize the emotional and financial toll of divorce by reaching an agreement by themselves.

According to the New York City uncontested divorce lawyer, ?New York City has seen a rise in the number of uncontested divorces in recent years, with many couples opting for this option as a way to end their marriage peacefully and efficiently. An uncontested divorce is one in which both parties agree on all terms of the divorce, including property division, child custody and support, and alimony.?

Uncontested divorces are often preferred over contested divorces, as they can be completed much faster and are typically less costly. Contested divorces often require court appearances and can take months or even years to resolve, whereas an uncontested divorce can often be completed within a few weeks or even days.

There are several benefits to choosing an uncontested divorce in NYC. One of the biggest advantages is that it allows both parties to avoid the stress and expense of a lengthy court battle. This can be especially important if the couple has children, as a lengthy divorce process can be emotionally and financially draining for all involved.

Another benefit of an uncontested divorce is that it allows both parties to maintain a level of control over the outcome of the divorce. In a contested divorce, the judge has the final say on all decisions, whereas, in an uncontested divorce, the couple can come to an agreement on their own terms. This can be especially

important for those who have specific concerns about their children or assets.

To file for an uncontested divorce in NYC, both parties must first come to an agreement on all terms of the divorce. This can be done through mediation or by working with a divorce attorney to come to a mutually-beneficial settlement. Once an agreement has been reached, the couple can then file for divorce and submit their settlement agreement to the court.

Lastly, attorney Besinque emphasizes the importance of having a skilled divorce lawyer when going through a divorce process. Having an experienced attorney may be able to help the couple understand their rights and responsibilities in the case. A divorce attorney may also be able to guide the client in making their decisions and help them choose the best option in the case.
