McHenry Roofing to Provide Roofing Services to the Brewers Hill Neighborhood in Baltimore MD

December 27, 2022

BALTIMORE, MD - December 27, 2022 - PRESSADVANTAGE -

McHenry Roofing, a company based in Baltimore, MD, is pleased to announce that they will be delivering their roofing services to the residents of the Brewers Hill neighborhood in Baltimore. Brewers Hill is found in the Southeast District of Baltimore. At the eastern boundary of this neighborhood is Haven Street, Conkling Street can be found to the west, Fleet Street can be found at the northern boundary, while Dillon Street can be found at the south. The homes in this neighborhood include the traditional Baltimore rowhouses made of redbrick and formstone.

Joseph Conley, owner of McHenry Roofing, says, "We are a part of the Brewers Hill community and see our clients as neighbors. We have provided both roofing and vinyl siding services on Fleet Street, Haven Street, Dillon Street, and Conkling Street. Brewers Hill is south of the Highlandtown and east of the Canton neighborhoods where we have received many successful jobs through neighbor referrals."

A common type of roofing service that can be provided by McHenry Roofing is pitched and asphalt shingle

roof replacements. They have a full line of architectural shingles made of fiberglass, asphalt, or wood. And they always strive to install beautiful roofs that can last for decades with the convenience of being easy to maintain. And the affordable pricing of the pitched roofs they provide has made them one of the top choices for roofing in Baltimore.

For homes and buildings with flat roofs, McHenry Roofing is an expert flat roof installer. They can offer both modified bitumen torch down roofs and rubber membrane flat roofs. Modified bitumen roofs are made of a single-ply rolled material that is provided with a mineral-based wear surface. This is applicable for those who prefer roofs that can stand up to weathering and can provide long-term durability. And the affordability of torch down roofing makes them a common choice for flat roofs. Meanwhile, ethylene propylene diene monomer (EPDM) or rubber membrane flat roofs may be more costly but they offer superior durability. This type of roof is usually installed using a cold-applied adhesive and ballasted with coarser aggregates. It provides both the long term and immediate performance that is needed for low-slope or flat roofs. These systems may also use a broad range of built-up layers that combine modified bitumen membranes and single-ply rubber membrane for better performance.

Meanwhile, they also provide various kinds of gutter and downspout installation services in Baltimore. They have various materials for gutters and downspouts, such as vinyl, cobra head, aluminum, steel, copper, and other materials. They can also offer custom-fitted aluminum gutter protection system to prevent the gutters from getting clogged. And they also offer seamless gutters that both stain and rust-resistant.

McHenry Roofing is a roofing company that has been offering a complete range of residential and commercial roofing services for 27+ years. Their roofing services include: metal roofing; pitched roofing; flat roofing; gutters and downspouts; commercial roofing; gutter guards; skylights and sun tunnels; soffit and fascia repair; home insurance coverage; and other related services. In addition to Brewers Hill, the areas in Baltimore that they serve include Locust Point, Riverside, Otterbein, Federal Hill, Fells Point, Pigtown, South Baltimore, Upper Fells Point, Canton, Hampden, Highlandtown, and Hollins Market.

Joseph Conley, owner of McHenry Roofing, says, "We provide full-service roofing services both residential and commercial buildings. From small roof repairs to major roof replacements, as well as waterproofing, gutters, and other services. We take pride in being the preferred roof repair and installation business for residents of Maryland who want high-quality roofing services at a reasonable rate. From start to finish, our expert, trained roofing technicians will assist you with your storm or accident-related insurance claim."

Those who are in need of a roofing company in Brewers Hill and other neighborhoods in Baltimore can check out the McHenry Roofing website or contact them on the phone or through email. They are open from 8:00

am to 6:00 pm, from Monday to Friday.
