

Fishing Charters Wilmington NC Service Announces Improvements for 2023 Including the Addition of a New Boat

December 29, 2022

December 29, 2022 -

Reel Zinger Fishing Charters is a Wilmington, NC-based operation that has garnered a solid reputation when it comes to hosting fun-filled fishing excursions. Part of this is due to this fishing charter operation?s willingness to make further improvements to help its already highly-rated fishing experiences get even better. Proof of this comes in the form of some recent announcements that the service?s owner, Captain Bryce Willis, just announced about some improvements they made for the 2023 fishing season. Changes include the addition of a new Parker 25' deep V hull with twin outboard motors.

Captain Bryce says, ?Just like the conditions for ocean fishing off the North Carolina coast are constantly changing, so too must we make changes to give our patrons the best possible experience when they fish with us. That?s something we are always willing to do no matter how much that costs. We feel our fishing trip guests will really like the improvements that we have made to our service for 2023.?

Captain Bryce went on to talk about why they decided to buy a new boat. The main reason for this is the twin outboard motors their new Parker 25' deep V hull boat features. That allows them to get to the areas they like to fish faster, so their guests spend more time having fun catching fish and less time traveling to where the fish are. Something that can never be underestimated for a fun activity that most groups do not get to enjoy very often. He added that this new boat also features many bells and whistles that will help make the time spent on the boat by their guests even more pleasurable.

It was also mentioned that the improvements for 2023 do not start and end with the new boat. Those booking a fishing trip with them off the North Carolina coast will also be able to use the latest and best in-shore and off-shore rods, reels, and other fishing gear that the company has just purchased. Upgraded fish-finding equipment has also been installed on the new boat. As always, the captain says that safety on the water is the top priority with them and the addition of a new FLIR radar system will definitely help with that. Captain Bryce also mentioned how he and his experienced crew are always researching the latest proven techniques that are being used to catch trophy fish. A good example of this is they have also experimented with the use of some new baits that they think will attract even more fish. He added that they at his Wilmington-based fishing charter operation will continue to look for ways to improve the overall fishing experience of their patrons. The Captain of Reel Zinger Fishing Charters of Wilmington added that for those that think it?s not good to fish in colder weather that is hardly the case. For the next few months, parties that book fishing excursions with them have a good chance of landing such fun-to-catch fish species as Cobia, King Mackerel, Yellowfin Tuna, Wahoo, Amberjack, and more.

Those that have booked a Gulf Stream fishing charter with Reel Zingers often rate that experience 5 stars in the reviews that they write. Lance King proclaimed, ?We had the best experience with Reel Zinger fishing charters in Wilmington NC. The boat was amazing, well-kept, and the equipment top-notch. We enjoyed ourselves a lot with them. If you want to have fun fishing and catch a ton, hire these guys.? Lynn Boyd stated, ?Captain Bryce was great! He was very knowledgeable and taught us a lot about finding our bait and targeting Kingfish. He put us on a good number of fish and was really great throughout the whole process. We will definitely be back to fish with him again.? In 2023 Reel Zinger will again be offering Full & Half Day Fishing Charters that allow for both In-Shore fishing and Off-Shore fishing along the Carolina Coast. Including trips for those visiting the Wilmington, Wrightsville Beach, Topsail, and Carolina Beach areas of North Carolina.
