Rancho Cordova Tree Service Experts Plants 5000 Trees in Honor of Mary Hill's 15th Anniversary

January 04, 2023

January 04, 2023 -
Rancho Cordova, California ? Mary Hill, in collaboration with Rancho Cordova Tree Service Experts, earlier today revealed that they will be setting up more roots across Rancho Cordova and its suburbs.

"Mary Hill is a non-profit organization dedicated to improving people's lives in different ways," revealed Rancho Cordova Tree Service Experts' CEO.

"This year," added the CEO, "as Mary Hill turned 15 years old, the organization thought it would be a wise idea to mark its celebration by planting 5000 trees across Rancho Cordova and the entire neighborhood to improve the environment."

"After doing their background checks on which company would be the best to partner with in the project," continued the CEO, "the Mary Hill organization settled with Rancho Cordova Tree Service Experts. Why? Only Mary Hill is in a position to explain why they chose Rancho Cordova Tree Service Experts over the rest. After Mary Hill approached the company, the whole Rancho Cordova Tree Service Experts team was down for the idea, and hence an agreement was made.?

The CEO noted that they were aiming for the project to take less than a month. He added that the trees will be planted in empty public areas and parks.

"The project will begin tomorrow," said the CEO of Rancho Cordova Tree Service Experts. "In three weeks, all the trees should be planted."

"The trees will be planted in public spaces and at the parks," added the CEO.

According to the CEO of Rancho Cordova Tree Service Experts, the project will aid in combating climate change, reducing air pollution, and protecting future generations' lives.

"Trees are known for their many benefits," said the CEO. "In a few years, after they mature, the trees will help in combating climate change and reduce air pollution. That way, the lives of the future generation will be in safe hands.?

The CEO confirmed that even after the partnership ended, Rancho Cordova Tree Service Experts would continue taking care of the trees. He then urged homeowners and other tree care companies to plant more trees.

"Rancho Cordova Tree Service Experts have outlined a clear mission of reducing carbon emissions by 30% before 2030 by planting trees," said the CEO. "If trees are planted and not given the attention they need, chances are they won?t survive, and hence the mission will remain a dream even after 2030. Therefore, the Rancho Cordova Tree Service Experts tree care team has agreed to take care of the trees to the fullest after planting is done.?

"Also," added the CEO, "since the future can?t rely only on the 5000 trees planted across more than 10 suburbs, Rancho Cordova Tree Service Experts will add more trees after the existing project is done. Other tree care companies should also invest in doing the same.?

"The homeowners should also aim to make maximum utilization of their pieces of land by planting trees," continued the CEO. "This way, achieving the environment everyone dreams of will be easier."

Finally, the CEO urged Rancho Cordova residents and the entire neighborhood to continue scheduling tree care appointments with Rancho Cordova Tree Service Experts.

"The goal is to have an environment full of healthy trees," said the CEO. ?This means that Rancho Cordova Tree Service Experts will handle all tree care requests while still going on with the project. Therefore, homeowners in Rancho Cordova and its surrounding areas should submit their requests, and rest assured that the team will complete the services on time.?
