# Roof Installation in Columbia's Kendall Ridge Results in Positive Review

*January 03, 2023*

COLUMBIA, MD - January 03, 2023 - PRESSADVANTAGE -

Locally owned and operated Baltimore area roofing company, Ridgeline Roofers Columbia, has a long history of satisfying home and business owners in its Maryland area with quality roofing services. This has helped to make them a popular roof repair choice in several communities throughout their area. One of those areas, Kendall Ridge, is where the company recently installed a new roof that the customer was so happy with, that he felt compelled to leave a 5-star review. That customer who was looking for a roofer near me in Kendall Ridge after that recent windstorm, Max Perkins, stated, "I had them install a new roof in my house. They were very professional and organized and kept me well informed throughout the process."

The company owner, Ernest Krebs, who always takes the time to personally respond to the reviews on his company, replied, "Thank you for your kind words, Max. We're glad to have been of service and that you found our communication and roofing workmanship up to par. Your satisfaction is our top priority!" As the owner's response says, flat roof repairs are one of the most in-demand jobs that Ridgeline Roofers Columbia does. He added that Ridgeline Roofers Columbia is available to help with both homes and commercial properties that need roof services.

The company owner also stated, "We have worked hard to gain the trust of many people who have roofing needs in Howard County and the surrounding communities. One of the areas that we have created one of our biggest followings in is Kendall Ridge. A community that we are proud to serve because of the many good, hard-working people there. We will continue to provide the quality roofing services that it takes to further grow our reputation in that area."

Krebs went on to say that his crews like working in an area such as Kendall Ridge which is home to the Howard County Bureau of Utilities, the Snowden Overlook Community Association, and the Young School in Kendall Ridge. It is between Route 175 and Routh 100 and is split by Saddle Dr.

Ridgeline Roofers Columbia is a reliable roofing company that understands the importance of customer service and quality workmanship. The company is known for their wide range of services, which include residential and commercial roof repairs, new roof installation, gutters, skylights and more. As they say on their website, "At Ridgeline Roofers Columbia, we are committed to providing our customers with the best roofing services available. Our team is highly trained and experienced in all types of roofing projects. We can answer any of your questions about material types and their costs versus performance for each type of material to help you make an educated decision that best suits your needs. Whether you are interested in replacing an old roof on a historical home, installing a new roof on a commercial building, or anything in between, Ridgeline Roofers Columbia is here to help."

Krebs says that doing new asphalt shingle installations is not their only roofing specialty. Not only are they adept at fixing sloped roofs, but their expertise also extends to full roof replacements. This is the optimum way of making sure older or worn-out sloping roofs stay impermeable and contribute to the aesthetics of any home or business that it covers. The company owner also mentioned some of the other motives why homeowners and business owners that have roofing needs in Kendall Ridge, as well as Columbia MD, trust them with their services. This includes the fact they offer free consultations, next-day estimates, and they use their own experienced in-house roofing crews. Customers of Ridgeline Roofers Columbia can also expect nothing but top-quality roofing materials to be used and on-site project management to go along with the best warranties in the industry and prompt and reliable service. For those requiring roof repair services in Kendall Ridge or the surrounding Columbia area, they can contact this company by phone, email, or through the convenient form found on their website.
