

Bren & Mike Prosperity Has Announced A Huge IPAS2 Update Launch

March 25, 2015

March 25, 2015 - PRESSADVANTAGE -

Bren & Mike Prosperity, a known brand in the entrepreneur and business world, has announced a huge update for the IPAS2 system, which will be coming March 25, 2015. This latest improvement on the system will allow customers to take advantage of additional training, a customizable IPAS2 webpage, better methods for lead tracking, and an all-around easier to use setup.

Much of the advancements in the IPAS2 system can be viewable through the IPAS2 review. It has been said that it will make starting a franchise-like business online even easier than it has been in the past. Bren & Mike Prosperity is hoping that these latest improvements upon the system will prove to potential and current users that all of the past IPAS2 scam rumors are nothing but false claims. The company has said the following, which is indicated also in the IPAS2 review, particularly as to how the system can improve business for those who use it:

"Sign up with the IPAS2 system now and I will give you access to the same traffic source used by 7 to 8 figure earners online. If you have had any interest at all in how to make money online, then the IPAS 2 System is what you are looking for. By reading this IPAS2 review you will learn the answer to what is IPAS2."

The team at Bren & Mike Prosperity has also made it clear that the IPAS2 scam rumors were created by competitors who were panicked, which was apparently due to the success of the IPAS2 system at work. A visit to the Bren & Mike website allows potential users to take advantage of a mini bootcamp for free, which provides instant access into some of the critical components of the new system.

Interacting through the mini bootcamp gives users an idea of the unique funded proposal system that Bren & Mike Prosperity talked about in their review. The system is said to pay 50 to 70% on all front end sales, meaning that smaller sales will help businesses and entrepreneurs to make more income, which can be used to pay for future advertising. They also promote the concept of a more simple design for higher functionality efforts and conversions that are far more optimal than many companies have seen in the past.

Along with the above-mentioned benefits, IPAS2 system users will also be invited to real-time chat sessions with live sales representatives, and will be offered professional business coaching to provide assistance in up-selling and simplified purchasing processes. Those who opt into the system now are offered a bonus which provides them a place in Bren and Mike's inner circle, a privilege within the company. This is all backed by a one hundred percent money back customer satisfaction guarantee, which is available after the first 14 days of using the system.
