Xarelto Lawsuit Lawyer Attorney Intermediary ProLegal Injury Announces Free Legal Consultation For People Who Have Experienced Blood Thinner Xarelto Side Effects

November 24, 2015

November 24, 2015 -
Xarelto lawsuit intermediary ProLegal Injury connects attorneys and lawyers with claimants who may have suffered complications due to harmful prescription drugs, medical devices, or toxic products. ProLegal Injury has announced its free legal consultation service for complications that may have aroused from the blood-thinning drug Xarelto (generically known as Rivaroxaban).

Having being in the news lately for all the wrong reasons, Xarelto is considered the most dangerous blood thinner on the market, and has been the subject of many filed federal lawsuits against Bayer AG and Janssen Pharmaceuticals its manufacturer and U.S marketer.

?Xarelto has being linked to serious injuries such as internal bleeding, stroke, and death,? says Mr. James Hill, spokesperson for ProLegal Injury. He further added that, ?The use of Xarelto was associated to many cases of internal bleeding, and over 150 deaths in 2012 alone.?

In 2013, the US Food and Drug Administration (FDA) issued a warning letter to the maker of Xarelto, noting that a print advertisement for the drug deemphasized the risks associated with it and made a misleading claim. Specifically, the FDA warned that including the risk information without any of the emphasis that was included on the benefit section, made it seem as though the risks were not important. The agency also noted that the most common adverse reactions with Xarelto were bleeding complications.

Since various lawsuit against Xarelto were consolidated to form multidistrict litigation federally, numbers of plaintiffs have grown even more, and it is expected to still rise as the case awaits trial. It is therefore necessary, for relatives of those who may have suffered complications from the blood-thinning drug or the patients themselves to be informed that a hefty compensation may be theirs through an attorney connected to them through the ProLegal Injury offer, once they verify their eligibility, and if they qualify, they are contacted for a free consultative review.

The attorney they may get, provided they meet eligibility criteria, will end up defending their cause, becoming the guardian of their rights, and an enforcer of justice to effect adequate compensation for them.

To get a free consultative case review and find more information about Xarelto litigations, visit Prolegal Injury website.

About ProLegal injury: ProLegal Injury matches attorneys with claimants who may have suffered complications due to harmful prescription drugs, medical devices, or toxic products for a free consultative review. Their network of attorneys has settled billions of dollars in claims for clients, and these attorneys are dedicated to help people or their loved ones, risk free.
