

Houston SEO Expert Now Offers Free Business Analysis

November 30, 2015

November 30, 2015 -
SEO Houston Pros, a business in Houston, TX, has recently started offering a completely free business analysis to interested parties. The analysis can be accessed through the company's website on http://www.seohoustonpros.com/discovery-page/. It is designed, mainly, to find out what their current standing is and how they can improve on this.

"Our free business analysis is a vital tool in terms of improving the outcome of SEO efforts," says Garrett Laidler from SEO Houston Pros. "It helps businesses to quickly see where their efforts are paying off, and where they are not. The report also provides them invaluable tips about how they can improve on certain areas and we are, of course, more than happy to help with their improvement efforts."

The Houston SEO Expert offers a comprehensive SEO and online marketing service. This includes web design and reputation management. Their target market is specific to businesses that are already set up. As such, they do not work with brand new startups. Additionally, they do not work with businesses such as those involved in adult industry, MLM or get rich quick schemes. They also ask that their clients already have a reputation and that they sell a solid product or service that can be worked on.

"We work with those that are actually legitimate businesses," adds Garrett Laidler. "Their business doesn't have to be hugely successful per se, but it must be an honest business that is already trading, be that at a profit or at a loss. We don't want to offer our services to businesses that are basically running scams or schemes and have no intention of staying in the industry for a long time."

Further details about the services offered by SEO Houston Pros and about their free business analysis report and how it can benefit a business are available through https://www.youtube.com/watch?v=CXQujOQA6lI.

For SEO Houston Pros, the goal is to ensure serious businesses are able to be the best they can be. In so doing, they will also improve the local economy and other services that the communities can actually benefit from overall.
