D.I. Auto Care Now Offers Car Detailing Service in Chandler, Arizona

January 10, 2023

Phoenix, Arizona - January 10, 2023 -
D.I. Auto Care can also provide a ceramic glass coating for a car or truck. This is a glass-like coating that provides the vehicle with a deeper shine and more protection against the harmful effects of the UVA and UVB rays of the beautiful Arizona sun.

D.I. Auto Care, a company based in Ahwatukee, Phoenix, and Chandler AZ, has provided an update on their mobile detailing service in the Chandler area in the Phoenix Valley of the Sun. They want to point out that they have a 4.8 overall rating on their Google Maps page, which means that they have received mostly 5-star reviews from their customers. Furthermore, for their mobile detailing, Chandler residents can rely on it, they are offering detailing not just for cars but also for trucks, recreational vehicles, planes, motor coaches, high-performance cars, boats, and more.

Paul, the owner of D.I. Auto Care, has been providing detailing services for cars for more than 38 years. He says, ?We also offer auto detailing, window tinting, tint removal, ceramic paint protection, auto glass windshield repair/replacement, cigarette smoke smell, and odor removal all insurance approved.?

He adds, ?Mobile detailing involves a number of components. These include the preservation of paint condition, restoration of interior seats and carpets, increase in resale vehicle value, a clean and shiny vehicle, engine detailing, light scratch removal, ceramic paint protection, and cleaning and conditioning of leather.?

Detailing involves the finishing, restoration, and cleaning of a vehicle that will result in the best possible level of cleanliness, as well as polish and shine. These detailing activities can be done on the interior and/ or exterior of the vehicle. Exterior detailing will usually have to do with the cleaning and restoration of the exterior parts of the car, such as the wheels, tires, windows, and chrome trim. Interior detailing means the performance of deep cleaning of the whole cabin interior. This will usually include a number of materials, such as plastics, natural fibers, carbon fiber composites, vinyl, leather, and even carpet upholstery made from

synthetic fibers. To be able to handle all of those kinds of materials, various products and methods will be used by the detailing company.

In addition to Chandler detailing services, D.I. Auto Care can also provide window tinting for vehicles, homes, and offices. They offer a lifetime warranty for their window tint installation and removal services in Chandler AZ. Window tinting offers a number of benefits, such as an increase in privacy; reduction of heat inside the vehicle, office, or home; prevention of ultraviolet radiation from getting inside the car, office, or home; ability to prevent the glass from shattering; and reduction of home cooling costs by as much as 50 percent.

They also offer glass windshield repair or replacement. For windshield repair, they usually suggest rock chip repair. For this, they will inject a resin into the chip and after it has cured and dried, this will thoroughly seal the outer layer of the glass windshield.

For windshield replacement, they will completely remove the vehicle?s front windshield, gasket, molding, old urethane, and trim pieces. Next, they will install a new windshield. A professional, windshield auto glass replacement will restore the car?s safety to its original level, or even better.

D.I. Auto Care can also provide a ceramic coating for a car or any vehicle. This is a glass-like coating that provides the vehicle with a deeper shine and more protection against the harmful effects of the Arizona sun that may cause the car to look dull over time.

There are a number of possible reasons why car owners may want to get a ceramic coating for their vehicles. These include the fact that: the ceramic coating can outlast other kinds of coating and will not break down as liquid or wax sealants; it can keep the vehicle looking like brand new for many years; the car will stay clean longer and it will be easier to get rid of water spots and bugs; it can offer savings in the long run because the car will remain clean for a longer time; the ceramic paint coating will be more capable of withstanding the elements; and ceramic coatings will make the car exterior scratch resistant.

When in need of detailing Chandler AZ residents may want to visit the D.I. Auto Care website, or contact them through the telephone or via email. They are open every day of the week, from Monday to Sunday, from 5:00 am to 10:00 pm.
