November 29, 2015 - PRESSADVANTAGE -

More Hot Leads, an online marketing and SEO company, is a newly launched business, started by Daniel Moscovitch and Josh Polsky, the business is hitting the ground running by attracting immediate positive attention. S. Moscovitch is originally from Winnipeg, Canada while Polsky is from St. Louis, Missouri. Both now live in Tel Aviv, Israel, from where the business operates.

"Basically, we were just two friends with a vision, time on our hands and a love of all things internet," says Daniel Moscovitch. "After working successfully on a couple of sites for some friends, we decided to turn our hobby and passion into a business. We're so glad to see that we are growing."

More Hot Leads, as shown on <http://www.morehotleads.com>, helps businesses of all sizes, both locally and globally, to increase their online presence. They achieve this by connecting these businesses to those people who are already looking for them on Google. Currently, their client base is in Israel, Canada and the United States and they have had significant successes in terms of increasing their visibility in search engines.

More Hot Leads is ready to take on more clients, and they are seeing an increased interest from various businesses, thanks to the positive reviews their current customers are leaving. "I can't thank Daniel and Josh enough," says Rob Ryan, one of their happy clients. "I felt like they really listened to me and what I wanted to

achieve and they delivered results that went above and beyond what I had asked for. I also felt like they gave a personal touch, rather than offering a standard one size fits all solution. I totally recommend More Hot Leads to anyone who wants to improve their online presence and visibility."

Moscovitch has tremendous experience in the world of content marketing and PR through his previous employment. Polsky, meanwhile, was employed as the head of a marketing department in a well-known Tel Aviv high tech startup organization. His past experience with sales funnel optimization and conversion rate optimization brings an added bonus to the team.

Between them, Moscovitch and Polsky have a wide knowledge of SEO that is backed by real world experience. For them, the More Hot Leads local SEO company is more than just an SEO company - it is a full service to help businesses that they believe in achieve tremendous success by connecting them with the people who are already actively searching for them online.
