

Dr. Mark Hickman Gets Highly Positive Review from Wife of Patient for Reversing a Vasectomy Successfully

January 18, 2023

New Braunfels, TX - January 18, 2023 -
Dr. Mark Hickman, MD, FACS, a vasectomy reversal surgeron in New Braunfels, TX, is proud to announce a highly positive review from the wife of a patient. Dr. Hickman provides two all-inclusive options to provide an affordable procedure with no hidden costs. The first option is $3,300, which is inclusive of an oral sedative and local anesthesia. The other option is $4,200 with IV sedation that is to be administered by a board certified anesthesiologist. Dr. Hickman has the distinction of being one of the pioneers of the use of laparoscopic surgery and he has even invented a number of surgical instruments.

In the recent review, Megan P. gave Dr. Hickman a five star rating and said, ?Dr. Hickman performed surgery on my husband this past December. We picked December because it was the best time for my husband to take off for his work, but my job had a busy summer lined up so we tried to not get pregnant until after my crazy busy summer. August was our first attempt at getting pregnant and I am so thankful and blessed to say that we got pregnant on our first try. I am currently 16 weeks and we have a healthy baby boy growing in my tummy. This is such an answer to prayer and we are so grateful for you and your team! It had been 14 years since my husband's vasectomy and we knew the percentages were lowered for us but praise be to God that everything worked! In surgery you told us that it looked good and you were right! Thank you for using your

gifts and talents for the Lord, thank you for praying with us before you started the surgery. We truly believe our son is a gift from God and we are forever grateful.?

Dr. Hickman completed his residency in general surgery at the University of Texas Health Science Center at San Antonio within five years. And it was during this period that he observed the microsurgery techniques used by plastic and reconstructive surgeons. He soon realized the potential of the minimally invasive procedures for his patients and he sought to study more about the microsurgery procedures. And he also set out to ensure that price of a vasectomy reversal is affordable.

He is also encouraging men from other places in Texas and even those from other states to visit his practice in New Braunfels and get the procedure. He has contacted various local hotels and made special deals with them to allow his out-of-town patients to have a 50 percent reduction in the price of their hotel accommodations. And it so happens that New Braunfels is a tourist town. It has two of the most beautiful rivers, which are the Comal River and the Guadalupe River. Thus, tourists can enjoy a lot of fishing, tubing, and swimming. Also in the area is Schlitterbahn, the nation?s biggest water park that provides a whole day of entertainment for people of all ages.

With over 26 years of experience in reversing a vasectomy, Dr. Mark Hickman is a minimally invasive surgeon known as one of the leading microsurgeons in the country. To date, he has performed more than 1,300 vasectomy reversals and he has also ?corrected? several vasectomy reversals that were performed by other providers. And he strongly believes in the importance of offering affordable all-inclusive options for reversing a vasectomy for men who want to become a father again. He also believes that the reversal procedure can help with the mental health of vasectomized men, especially for those who only consented to the procedure after being pressured by their partner.

Those who want to get more information about the vasectomy reversal procedure can check out the Microsurgical Vasectomy Reversals by Dr. Mark Hickman website or contact them on the telephone or by email. They are open from 8:30 am to 5:00 pm, from Monday to Friday.
