

Global Builders Warehouse Is Offering a Range of SPC Hybrid Flooring Options in Melbourne VIC

January 24, 2023

January 24, 2023 -

Global Builders Warehouse is offering homeowners a wide range of flooring options to adorn their Victoria properties with. The company is especially evangelizing the benefits of SPC Hybrid flooring, luxury planks engineered by combining stabilizers and limestone.

The company's product lineup, in its Doveton and Truganina store locations in Victoria, includes SPC Hybrid flooring, tiles, sintered stone benchtop panels, laminates, carpets, sintered porcelain stone slabs, bamboo flooring, engineered timber flooring, outdoor pavers and stone flooring, kitchen flooring, showers, and assorted flooring accessories.

One of Global Builders Warehouse's most popular product offerings is its range of SPC Hybrid flooring in Melbourne VIC. SPC (Stone Plastic Composite), also known as Hybrid flooring is 100% waterproof, stable, dent resistant, and shares a lot in common with older luxury vinyl plank flooring. It is specifically engineered to have several layers including a top wear layer, a UV top coat that serves as a waterproof barrier, the SPC

core that is made from limestone powder and stabilizers to offer extremely high strength, and an acoustic underlayer that reduces sound while giving the floor a soft feel.

SPC Hybrid flooring offers several benefits that make it a popular choice for Victoria homeowners. Apart from being fully waterproof, it also remains stable in temperature fluctuations, mimics the textures, designs, colors, and styles of wood flooring, feels sturdy under the feet, is almost silent to walk on, is affordable compared to timber hardwood flooring, and is easy to clean and maintain. SPC Hybrid floors come with a lifetime warranty making them perfect for use in high-traffic areas. Finally, since the main raw material of SPC flooring is eco-friendly, non-poisonous, and renewable polyvinyl chloride, it is preferred by environmentally conscious homeowners.

Global Builders Warehouse also offers buyers flooring options that make use of the industry-leading 5G locking mechanism. The long sides of the floor panels are locked with a traditional angling method and the 5G or 5G-i mechanism is used for a toolless and fast vertical snap installation. The result is dramatically reduced installation times without the need for any gluing or nailing. The single-action installation method is used by more than 100 flooring producers around the world and Global Builders Warehouse is bringing the innovation to property owners and contractors throughout Victoria.

The Victoria flooring retailer also offers plenty of options for those looking for reliable and lasting timber flooring in Melbourne VIC. Its engineered timber flooring options have proven to be quite popular with designers for the wide range of aesthetics it is available in, including cherry, maple, oak, walnut, and more. Flooring contractors prefer engineered timber flooring too due to its unmatched flexibility and ease of installation. The flooring is also more tolerant to moisture making it a durable choice for homeowners who care about longevity.

Global Builders Warehouse backs up its comprehensive flooring products inventory with excellent customer service and affordable pricing. Several reviewers have given it a 5-star rating, vouching for the quality of the products and the help they received from the store's staff to make the right decision. The latest review on the company's Google Business Profile says, "Fantastic customer service. Cecilia went above and beyond helping instantly answering all my questions over the phone. I bought the beautiful spotted gum flooring at the craziest BEST PRICES! Cecilia organized shipping as I was over 4 hours away and within the week, they were here. Highest recommendations on product, price, and service. Thank you, I am extremely happy."

The company has a 14-day, 100% money-back guarantee for online orders subject to certain terms. It makes heavy and bulk shipments across Melbourne and Victoria with Express 24-hour \$99 flat-fee shipping to Melbourne-Metro and Express 48-hour \$199 flat-fee shipping to Greater Melbourne and Vic Regional.

The flooring shop in Melbourne VIC has a 24/7 sales support team ready to answer all customer questions about its products, help them track their active orders, and offer quotes, product samples, product information, and delivery estimates.
