

New York City Workers Compensation Attorney Keetick L. Sanchez Explains the Work of a Workers Compensation Attorney

January 17, 2023

JACKSON HEIGHTS, NY - January 17, 2023 -

New York City workers' compensation attorney Keetick L. Sanchez (https://accidentlawyer-queens.com/workers-compensation/) releases a new article that discusses the role of a workers? compensation attorney. According to the lawyer, being hurt at work can cause stress for both the worker and their families. This is due to the high medical costs and reduced ability of the injured person to work.

"In New York, laws are in place to make sure you are able to pay these bills, recover lost wages, and obtain disability benefits if returning to work isn't possible. An experienced workers' compensation lawyer may be able to help the victim receive the compensation they deserve," says the New York City workers' compensation attorney.

According to the lawyer, workers' compensation laws are created to make sure that all workers who are

injured at work get enough benefits to cover their losses. To be eligible for worker's compensation in New York, an injury must meet certain criteria.

Attorney Keetick L. Sanchez says that the reasons that will allow someone to make a claim under the workers' compensation laws include that the accident must have happened in a workplace, the accident happened while performing work-related duties, the injuries occurred as a result of work-related tasks or operations, and that the injuries occurred as a result of exposure to toxins or chemicals through the course of work.

The lawyer also states that workers' compensation benefits should cover medical expenses as well as everyday expenses. Employees cannot sue their employers if they are hurt at work. Instead, they must file a claim under the workers' compensation law to recover their losses.

According to the "Compensation for other losses including pain and suffering may be recovered if you can prove negligence on the part of a third party who could be sued for your injuries. Consulting with a New York City workers' compensation attorney from our firm can help you determine if these losses can be considered as part of your claim."

Lastly, attorney Sanchez emphasizes the importance of having a skilled lawyer when it comes to matters such as workers' compensation. Having an experienced attorney may be able to help the victim receive the compensation that they deserve for the injuries they suffered.
