St. Saviours, UK - The electric foot file callus shaver is made with simplicity in mind and has a state of the art design to ensure that the user requires minimal effort. Since its release on Amazon, the rotary pedicure tool from Bodi Hut known as the Bodi Sole has been receiving great reviews from pleased customers.

The electric foot file callus shaver currently has a 4.7 out of 5 customer review rating with 80% of customers giving the item a 5 star rating. For a fairly new product, these stats are very impressive. Due to these impressive reviews, this new pedicure tool continues to move up the rankings in Amazon and sales and reviews continue to increase.

Bodi Hut's hand-held pedicure device exfoliates the feet by smoothing parts of the feet that are calloused removing dead skins. The electric foot file callus shaver is a battery operated pedicure device that negates the adverse need for cords, making it a portable, compact and conveniently easy to use pedicure tool that leaves the feet with a beautiful, softer, smoother, and enticingly refined finish. The electric foot file callus shaver is packaged in a giftbox that has additional accessories which include, two free duracell batteries, an uniquely designed carrying bag, a 1-piece pedicure refill and a cleaning brush.

According to a Bodi Hut representative the electric foot file callus shaver is very affordable and a cut above similar products from different merchants, "Our electric foot file callus shaver set is unique and stands above other pedicure tools due to the great results it gives in a short time. It also eliminates the need to spend money and time at expensive salons for continuous treatment."

Getting a pedicure is now made to be easy and in the palm of the hands. Just by the press of a button the user of the electric foot file callus shaver can accurately manipulate the handheld pedicure device and properly target callused areas of the feet. The Bodi Sole has an unique roller that grinds and spins 360 degrees to gently buff away dead skin. The product is also water resistant, making it relatively easy to clean, by simply detaching the roller, wash with water and the cleaning brush included in the set.

Sasha Kramer in her 5-star review said that the product is a nice foot file, "The file is very gentle and smooth and doesn't hurt whatsoever. It makes the bottom of your feet feel so silky smooth. This particular foot file just takes batteries which are included, so that's definitely a bonus! The file is washable and overall this is really a good product. I have used it on both wet and dry feet and both types works great in removing the callus build up. This set comes with an extra file and a little duster and a cover for the file."

The electric foot file callus shaver from Bodi Hut is currently available on the shopping portal Amazon. Each purchase is backed by a lifetime free replacement guarantee.
