

Englewood Colorado's Premier Outdoor Lighting Company Bling! Is Offering Exterior Lighting Design And Installation Services

January 30, 2023

January 30, 2023 - PRESSADVANTAGE -

Bling! Premier Lighting of Englewood is offering luxury lighting installation services to the residents of Englewood, Southeast Denver, Aurora, Castle Pines, Castle Rock, Elizabeth, Franktown, Highland Ranch, Lone Tree, Parker, and surrounding communities.

Bling! is a national brand that provides customers with industry-leading exterior lighting products and services. The company has a suite of visualization software that allows customers to see how the lighting installations will look on their property during the design phase, giving them immense flexibility in designing and customizing it to their exact tastes. It also hires only the most experienced lighting installation professionals who are trained to make the best use of its high-quality lighting hardware that shines for longer, brighter, and more efficiently than its competition. Bling! of Englewood is bringing the same industry advantages that have made the parent company a household name across the country to the city's residential and commercial property owners.

Bling! has a 7-step process that promises its customers a smooth experience from start to finish. It begins

with a virtual or in-person design consultation where the staff understands the customer's needs. The company's designers then offer suggestions based on their experience. The visualization is then digitally rendered to give customers a firsthand look at how their home will look like. Once the design is locked in, the company creates a written proposal documenting the project's specifications in detail. Next, the contract is signed, and a schedule is created to meet the deadline set by the client. After Blingle's experienced technicians set up the lights, post-installation, they will be available to fix any issues covered under the company's warranties. Finally, customers who opted for short-term lighting solutions can rely on Blingle to take down the installation after the event or holiday.

Blingle Premier Lighting of Englewood has received several glowing testimonials from Colorado households and businesses for its premium lighting services. One testimonial highlights the quality of the hardware used and the friendly design process by saying, "The process was really very nice. From the estimate, complete with photos to illustrate what the finished product would look like. To the installers that were punctual, polite, and professional. I was so impressed with the care they showed and their attention to detail. Not to mention that the lights are super cool - way more flexible and way higher quality than anything I've purchased before."

Another reviewer praised Blingle's customer service by saying, "The people at Blingle are the BEST! Kim in the office is great at communicating all details about the job, and the installers, well, I have absolutely nothing but great things to say about these two young men! They are respectful, diligent, fast, careful, and most of all, they are two of the friendliest young men ever!?" Readers are urged to check out more such reviews on its Google Business Profile where it has a perfect 5.0 out of 5.0 rating.

Blingle of Englewood is managed by Kim Fenolio, an entrepreneur who ran a home-based interior design business before diving headfirst into the exterior lighting services industry. She has an eye for catchy designs and a wealth of business and planning experience to bring to homeowners and business owners in and around Englewood.

Blingle of Englewood offers a variety of holiday lighting, landscape, and patio lighting, permanent lighting, event lighting, and commercial lighting services. Its permanent lighting fixtures can be customized to showcase a range of light patterns and colors that can be modified based on the occasion, event, or holiday. The company's landscape lighting solutions include commercial grade, fully weatherproof strands that can withstand any conditions, especially the cold Colorado winters. The outdoor lights can showcase any part of the property's exterior including patios, decks, porches, gazebos, grills, fire pits, outdoor pools, outdoor spaces at commercial establishments such as bars and restaurants, steps, outdoor walls, wall sconces, and more.

Readers can contact Englewood Colorado's premier outdoor lighting company at (303) 854-6269 to get started with a free design consultation.
