

Tamassios Orthodontics Brings Innovative Orthodontic Treatments to Cyprus

January 23, 2023

January 23, 2023 -
Nicosia, Cyprus: Smile transformation takes just a visit at Tamassios Orthodontics, a leading dental clinic in Nicosia that offers the most advanced orthodontic treatments to locals and people from nearby countries.

Dr Michalis Tamassios, the clinic's leader and experienced orthodontist, studied at the National and Kapodistrian University of Athens, graduating with the title of DDS ? Dental Surgeon and, afterwards, attended a three-year Postgraduate program in Orthodontics. The reputable orthodontist provides excellent orthodontic care and patient services at reasonable prices, so everyone can achieve the smile of their dreams.

Tamassios Orthodontics was founded not just to perfect a smile, but also to educate and help children and adults in Nicosia understand the importance of good oral hygiene. Unlike any other orthodontic clinic in the area, Tamassios Orthodontics is keeping up with the latest developments in Orthodontic Science. It offers a great variety of treatments to patients, leaving no room for disappointment.

The specialised dentist offers treatments such as metal braces, Invisalign aligners, Incognito lingual braces, clear braces, and Damon system braces, all designed with patient comfort in mind. They also use ClinCheck Software, which shows the series of movements that the teeth will make during the course of treatment and see the final result in advance.

The clinic's modern and friendly environment with state-of-the-art equipment makes patients confident that they are receiving the finest orthodontic care possible. Dr Tamassios and his team provide private consultations, detailed examination and necessary information about the treatment that suits each patient. Their top priority is to offer top-quality and comprehensive services to all.

Ideal for adults and children, the orthodontic treatments offered by Tamassios Orthodontics help restore proper teeth function and create the best esthetic result, boosting patients? confidence. The extent of the treatment is determined individually for every patient and can vary from a few months to a couple of years, depending on the severity of the misalignment. With the help of Tamassios Orthodontics, a brighter smile is just one visit away.
