

San Antonio CBD Store Farmacy Botanical Shoppe Is Offering Live Rosin Gummies and CBG Flower

February 06, 2023

San Antonio, Texas - February 06, 2023 - PRESSADVANTAGE -

The Farmacy Botanical Shoppe, one of the best CBD stores San Antonio has to offer, has listed several edible and flower products for sale on its website including Delta 9 Gummies from Hometown Hero and CBG White Hemp Flower.

The Farmacy Botanical Shoppe has established itself as the go-to source for premium CBD products in San Antonio, Texas, by delivering personalized wellness solutions. The company's products have helped many local customers benefit from the wellness advantages that CBD, CBG, and Delta-9 THC have to offer. The store's THC products have a maximum concentration of 0.3% Delta-9 THC, making them completely legal for consumption under the 2018 Farm Bill.

The Farmacy Botanical Shoppe proudly offers live rosin Delta 9 Gummies from Hometown Hero, a local Texas favorite brand. These gummies deliver strain-specific effects, allowing buyers to choose either an uplifted or mellow experience. Live rosin is a golden, terpene-rich extract made through a process of pressing uncured hemp flower. This extraction method preserves the live terpene profile of the plant, which gives the gummies a unique flavor, with no artificial flavors or colors added.

Hometown Hero's Delta 9 Live Rosin Gummies are available in two strains ? Blue Dream Sativa and Northern Lights Indica, both packages offering 10 gummies for \$60. The gummies can be bought in-store or can be ordered for local delivery within a 15-mile radius. For local orders, first-time buyers will need to show a valid ID at the time of delivery to verify they are over 21 years old.

A spokesperson for The Farmacy Botanical Shoppe talks about the choice of strains available by saying, "Blue Dream is a Sativa-dominant strain with a fruity fragrance and is a household name among cannabis enthusiasts. It stimulates the mind, making it the perfect accompaniment for creative tasks. The Sativa strain gives you a sense of well-being and euphoria that will help you power through your hobbies and make the

most of your free time. Northern Lights, on the other hand, is a highly-sedative Indica strain that is known to help calm anxious thoughts and general feelings of discomfort. Cannabis aficionados who prefer Indica strains for their deep, full-body relaxation experience look to Northern Lights for its soothing and grounding effects. No matter your preference, make sure to carve some time from your busy schedule to be safe and fully enjoy these delicious gummies.?

For customers who prefer to partake in hemp flower itself, The Farmacy Botanical Shoppe offers flower that is bred specifically to produce high levels of CBG (Cannabigerol), also commonly referred to as the mother of all cannabinoids. CBG is the precursor to other popular cannabinoids and is known for its restorative and rejuvenating effects. Scientists believe that CBG binds to certain receptors in the brain giving the compound its many therapeutic properties. Research into CBG has shown promising results such as reducing inflammation, easing pain, slowing the growth of some cancer cells, and mitigating anxiety.

The Farmacy Botanical Shoppe's CBG flower is lab-tested, hand trimmed, and sourced from Oregon. CBG flower has low levels of THC, making it a great pick-me-up for daytime use. The product is available in five different weight configurations including 2 grams for \$10, 4 grams for \$20, a quarter ounce for \$35, half an ounce for \$65, and a whole ounce for \$115.

Readers can check out the delta 9 live rosin gummies, CBG flower, and other cannabinoid products - such as CBD oils and edibles, additional Delta 8 and Delta 9 THC products and even pet CBD products - on The Farmacy Botanical Shoppe's website. The store offers free delivery in San Antonio for orders over \$40, with deliveries taking place Monday through Friday from 6:30 PM to 8:30 PM.
