Electronic Merchant Systems Is Offering Their ISO Agent Program In Montana

January 26, 2023

Cleveland, Ohio - January 26, 2023 -
Electronic Merchant Systems (EMS) is offering its ISO Agent Program for payment professionals in Montana who want to grow their merchant services business. Readers can find out more about the agent program by visiting: https://www.emscorporate.com/merchant-services-iso-agent-program-mt.

The EMS Agent program helps agents offer their merchants an industry-leading product suite that includes mobile payment processing, Point of Sale payment solutions such as MaxxPay, Total Touch POS, additional services such as gift and loyalty programs, web design, and more.

The company also states that its agent-focused program can help them approve merchants quicker, close more deals, and get immediate access to funds once their merchants begin processing.

EMS has over three decades of experience helping merchant services agents be successful. The program has developed relationships with five sponsor banks, allowing agents to offer a processing home for merchants in challenging verticals.

The company also provides an agent portal, MyPortfolio, for white labeling, enabling agents to use it as their own. MyPortfolio, allows agents to see a complete snapshot of their portfolio performance. This includes a residual summary, top merchants by volume and residuals, chargeback stats, portfolio stats, and a twelve-month graph of overall portfolio performance.

A spokesperson for Electronic Merchant Systems discusses one of the company's advantages for agents: "Our 10 minute auto approval gives our agents the confidence to approach merchants and have them approved on the same day. This will enable agents to close more deals and maximize their merchant portfolio. Moreover, once they start processing payments, they will have immediate access to their residuals, reducing the time it takes for them to start making a steady income. Contact us today to become an EMS

Agent and see how we can help you."

Another benefit of its Agent Program is that EMS can help agents with their ISO registration. EMS will not only assist with registration but will also cover the cost for qualified agents.

The EMS Agent Program focuses on transparency and open communication. It provides all its agents the support of a sophisticated US-based support team that is available 24/7/365, as well as a dedicated relationship manager that can answer their questions and give them the support they need.

Individuals considering participating in the EMS ISO Agent Program in Montana and selling merchant services can contact the company via their website or email.
