

Results of Dental Implant Cost Survey in Perth, Western Australia

January 30, 2023

January 30, 2023 -

Perth, Western Australia, is one of the leading providers of dental implant and prosthodontic services in Australia. Recently, the Australian Dental Association (ADA) conducted a cost survey to provide patients with a better understanding of the cost of dental implants in the Perth area and to compare the prices offered by different clinics.

The survey from the Australian Dental Association (ADA) revealed that the average cost of a single dental implant in Perth can range from \$3,000 to \$6,000 AUD, depending on a number of factors such as the type of implant used, the experience and qualifications of the dentist, and the location of the clinic.

However, My Implant Dentist, a leading provider of dental implants, was found to be 31% more affordable than the national average, making it a viable option for those looking for dental implant treatment.

Kent Tan, the owner of My Implant Dentist, said: "We understand that cost is a major concern for many patients considering dental implant treatment. That's why we strive to offer the best prices for My Implant Dentist patients while maintaining the highest level of care. We want to ensure that everyone can afford the dental care they need and deserve."

My Implant Dentist is dedicated to providing an excellent standard of dental care to all its patients, at an affordable price. The results of the ADA cost survey for dental implant procedures are further evidence of this commitment and its ability to offer the best price for its patients.

With its state-of-the-art technology, experienced dentists, and commitment to patient satisfaction, My Implant Dentist is the best choice for dental implant treatment in the Perth area.

The clinic offers a range of services, such as implant dentistry, prosthodontics, and cosmetic dentistry, as

well as a variety of additional treatments to improve patients' overall health. The clinic also offers a wide range of payment options to ensure that dental implant treatment costs are accessible to everyone.
