

Luxury Facility and Lavish Amenities Make All the Difference for Clients Fighting Addiction at Sylvan Detox

January 30, 2023

Woodland Hills, California - January 30, 2023 -
Los Angeles, California ? Old stereotypes about addiction rehab being a cold place marked by deprivation and isolation are no longer valid, thanks to forward-thinking programs like Sylvan Detox. Recovering addicts find a welcoming atmosphere and lavish amenities at the Los Angeles treatment center, whose founders believe the rich and famous aren't the only ones who deserve to be treated with dignity in rehab.

Sylvan Detox is the No. 1 alcohol and drug rehab in Los Angeles, a claim backed with coverage by most insurance plans and certification from top healthcare review agencies: the Joint Commission, the California Department of Healthcare Services, the Substance Abuse and Mental Health Services Administration and Commission on Accreditation of Rehabilitation Facilities.

From semi-private rooms where residents sleep on high-quality mattresses to delicious meals and engaging recreation, Sylvan Detox creates a safe, comfortable space where clients can focus on their recovery. Every

item has been curated to supplement clients? physical and mental well-being.

But all this luxury isn't about pampering or indulging the client. Each element is designed to strengthen the client's chances of recovering and moving on to long-term sobriety. For instance, residents have access to a Smart TV with several streaming services, giving them much-needed relaxation after a long day of behavioral therapy, holistic treatments, recovery meetings and other residential treatment.

Housekeeping services are provided so clients can spend their time healing, not making the bed or cleaning the bathroom. For the same reason, staff make weekly runs to local stores for small products like hygiene or food items (with the client?s funds).

Long-time addicts often are undernourished from years of neglecting themselves while chasing their next drink or dose, so Sylvan Detox ensures dietary needs are finally met. A private chef creates meals that are nourishing and tasty and accommodates food allergies and other special dietary needs. A fully stocked snack bar is open 24 hours a day for unlimited enjoyment. An outdoor patio includes a barbecue area where clients can also feed their need for social connection.

Both mind and body are strengthened with a varied recreation program. Clients learn positive stress relief with indoor fun like video games, foosball, corn hole, ping pong and pool, and can burn off energy on the basketball court. In addition, clients can choose from a library of books for quiet time alone and board games with new friends.

Connection to existing support networks is critical for recovering addicts. After an initial blackout period, Sylvan Detox allows clients to use their phones to stay in touch with friends and family.

To further put residents at ease in their journey, Sylvan Detox provides security around the clock to keep everyone safe and secure at all times.

These luxury amenities are not the whole story but are simply the tools that make recovery more possible. Even more essential to clients? success is the Sylvan Detox team of treatment professionals. They are dedicated to providing each client with the highest-quality care possible in a variety of programs designed for individual recovery needs: medical care, individual therapy, holistic therapies, aftercare planning, recovery resources, and outpatient treatment.

In addition to undergoing traditional therapy, clients are encouraged to take part in alternative treatments such as yoga, sound therapy, massage and much more. Care doesn?t stop when the client completes treatment. This period is the riskiest time for relapse, so graduates continue to receive guidance and support from aftercare and alumni programs.

Long-term sobriety is not a luxury, and neither is the need for respect and dignity. To seek comprehensive treatment for alcohol and drug addiction in a comfortable and comforting program, visit Sylvan Detox or call 818-308-3099.
