

Evergreen Bins & Landscape Supply Offers Dumpster Rental Service in Prince Edward County

February 27, 2023

February 27, 2023 - PRESSADVANTAGE -

Evergreen Bins & Landscape Supply, a company based in Ameliasburgh, Ontario, Canada, is offering dumpster rental service in Prince Edward County, Ontario, and neighbouring areas. The company offers its services to the areas of Prince Edward County, Belleville, Brighton, Napanee, Trenton, and the Bay of Quinte Region. It can also deliver dumpster bins to project sites beyond the service area indicated. Special accommodations can be made although extra fees will be charged, depending on how far outside the radius of service is the project site located. Those who are interested in knowing more about the company and its services can check out the company website at <http://www.evergreenbins.ca/>.

Tyler, a spokesperson for Evergreen Bins & Landscape Supply, said, "Evergreen Bins Inc is a locally owned and operated company proudly serving Prince Edward County and surrounding areas. We have the right-sized bin for all your waste disposal needs. Residential, commercial, industrial, new construction, roofing tear-offs, remodels, or house and garage cleanouts - we can handle it all! Through a simple process and clear, straightforward communication, we offer our customers the best possible experience. We make renting a bin as easy as possible for your convenience."

Evergreen offers the 10-yard bin for rental for up to seven days. This particular bin measures 14 feet in length, 8 feet in width, and 2.5 feet in height. This dumpster size can be used for various types of jobs, including garage and attic cleanouts, landscape project cleanup, home remodeling cleanup, and cleanouts before moving. It's best for roofing jobs, small cleanup projects, spring cleaning, or small bathroom renovations. Evergreen Bins & Landscape Supply also offers the 10-yard clean fill bin, which will be used only for clean fill. It cannot be filled with foreign materials like rebar or contaminated soil.

Those who require a larger bin may want to check on the 16.5-yard bin for rental for up to seven days which measures 14 feet in length, 8 feet in width, and 4 feet in height. This is typically used for fence removal, junk removal, estate cleanouts, home renovation projects, and carpet removal. It's best for general renovations, larger cleanups, and kitchen renovations.

And for those who need a still larger bin, Evergreen is offering the 21-yard bin for up to seven days of rental time for bigger projects. This bin measures 14 feet in length, 8 feet in width, and 5 feet in height. Because of its large volume capacity, it is typically used for complete fence and deck tear-outs, full attic or garage cleanouts, demolition clean up, restoration cleanups for fires, floods, and restoration projects, and house cleaning or purging before a move. This bin is best for large renovations, heavy cleanups, and construction site waste removal.

With regards to the quality of their service, Evergreen has an overall rating of 4.7 out of 5 stars on Google. In one of its recent reviews, Andrea May gave the company a five-star rating and said, "Hands down will never use another bin rental service in the Prince Edward County and Quinte area. So many things to say good things about Evergreen. The price was better than any other (and we have rented elsewhere before). We booked everything online as soon as we decided we needed a bin - so easy. The instructions we received before drop off were clear and easy to understand. The bin arrived on time and the drop off was quick and efficient. Pickup was also exactly as planned. Communication was clear and friendly. Happy to have found Evergreen. We will return as customers."

The company takes initiatives to promote sustainable and eco-conscious practices by working directly with local landfills to ensure all waste is disposed of properly in accordance with county regulations and by planting a tree for each bin rental received.

Those who are interested in learning more about the dumpster rental service offered by Evergreen Bins & Landscape Supply can check out the official website or contact staff on the phone or through email.

The company is open from 7:00 am to 7:00 pm, every day of the week. Those who want to know their exact location and other relevant information about the company can check out its Google Maps page at <https://goo.gl/maps/c5guiSWs5qrThJBX6>.
