

Partners in Renovation Shifts Their Home Renovation Services to The Woodlands Texas

May 28, 2024

May 28, 2024 - PRESSADVANTAGE -

Partners in Renovation has announced they're shifting to the Woodlands Texas as their primary service area, but they'll continue to serve, Egypt, Tomball, Spring, and other nearby communities in Texas. They offer whole house remodeling in the Woodlands and surrounding areas. Aside from The Woodlands, they also offer their services in Houston, Cypress, Spring, Lake Conroe, and Tomball. Currently, they have an overall rating of 5.0 out of 5 stars based on 28 reviews. More about the reviews can be gleaned from partnersinrenovation.net.

In one recent review, Rick T. gave them five stars and said, ?Partners in Renovation were wonderful to work with. They listened to what we wanted and designed our renovations. They were very patient with us. We had to move from our Plan A renovation to our Plan B renovation due to HOA restrictions. Once the plans were settled, we were provided with an estimated cost. No additional costs were incurred unless we requested additional services. The supervisors inspected work as it was being performed and made the subcontractors do rework when the construction was not correct. All the staff, including the subcontractors, were very polite and respectful. I definitely recommend Partners in Renovation for anyone looking to have renovations done to their home or business.?

Partners in Renovation offers various kinds of services aside from whole house remodeling, such as: bathroom remodeling; kitchen remodeling; auxiliary dwelling unit (ADU) construction; patio covers; home additions; room additions; and custom home building. More about the company can be gleaned from their website at partnersinrenovation.net.

Their bathroom remodeling services range from a small facelift to total demolition and remodeling of the bathroom space. With their well-experienced bathroom remodeling contractors, they can completely change the look and feel of the bathroom, whatever its size.

They can also provide kitchen remodeling services, which can significantly enhance the value and livability of the home. With their extensive experience and knowledge, they can completely redesign the kitchen space to improve its functionality through a complete kitchen renovation or addition of custom cabinetry and granite countertops at an affordable price.

The Partners in Renovation team can also help in creating attractive and functional covered patios, which are specifically tailored to the client's home and needs. They can offer different kinds of patio covers and designs that can accommodate backyard seating, outdoor kitchens, pool decks, privacy from neighbors, shade from the sun, and more.

They can also help with the construction of ADUs. They will also handle the building permits and the insurance requirements so that clients can simply sit back and relax as their new ADU takes shape and is completed.

For growing families, they can also help with the construction of home additions or room additions to provide the necessary additional space. And finally, they can offer custom home building to allow clients to finally have their dream home. For this, they can partner with a dependable design team who can offer valuable insights during the planning phase, during construction, and also with interior design.

Founded in 1985 by Bill Weber and his father Joe, Partners in Renovation began as a provider of painting and wallpapering services. After several years, Joe retired and Bill took over who then decided that it was time to venture into home remodeling. Bill realized he had a passion for helping people transform their current home into their dream home. When the business started to grow very fast, Bill decided to ask Jim, his fellow craftsman and good friend, to join the business as a partner, and Jim became part of the company in 2015 and his role in the business grew quickly until he became CFO. Jim has a varied experience in business and operations, and has focused on supply chain and logistics. Using his own experience, he started to implement processes and procedures that allowed the company to maintain high quality standards and customer satisfaction.

Those who are interested in learning more about the home renovation services provided by Partners in Renovation can check out their website at partnersinrenovation.net or contact them on the phone or through email.
