

Reed Maintenance Services, Inc. Rolls Out New Fleet Vehicles

February 09, 2023

February 09, 2023 - PRESSADVANTAGE -

Reed Maintenance Services Inc., a Union Grove, AL based waste disposal company, is pleased to announce the addition of two vehicles to their fleet. They recently put a new portable toilet truck and a new roll off truck into service, adding to their already large and ever-growing inventory of vehicles and dumpsters. The company is always looking to improve their list of services, and these new vehicles will allow them to better provide for clients in their service areas.

The company serves Albertville, Arab, Guntersville, Huntsville, Madison, AL and multiple places in between. Reed Maintenance Services supplies dumpsters in a range of sizes, including 20-yard, 30-yard and 40-yard dumpsters, which can all be used for a variety of tasks. Customers often use the dumpsters for refrigerator disposal, garbage removal, mattress disposal, appliance removal and more. Multiple size options mean that there is a dumpster for everything from small scale cleanup projects to large renovation projects, and Reed Maintenance is always happy to drop off a dumpster that meets the specific needs of each individual customer.

?Reed Maintenance Services, Inc. provides low-cost roll-off dumpster rentals for residential and commercial

projects,? says Reed Maintenance Services Inc. ?Our dumpster rental experts can help you decide which size is best for you based on the scope of the project with a single phone call. Your container will be delivered by truck and placed in your desired location. Make sure all vehicles are moved to the garage or street, and check for low hanging obstacles like tree branches or wires. Once the dumpster is delivered, you can begin loading your materials. Make sure to keep the debris below the edges of the container and be aware of your weight limit as you fill up the dumpster. When you are finished, simply notify us and schedule your pickup within your rental period, and we will come haul it away.?

Waste disposal is heavily regulated at both the local and federal level, which is why it is important to dispose of items properly. These regulations also state what cannot be thrown into a dumpster, such as tires, chemicals and other toxic or hazardous materials. However, hiring a dumpster gives customers access to a highly flexible method of disposing of all kinds of trash. The client need only call Reed Maintenance Services to have them drop off a dumpster of a certain size, and then the company will come and pick it up at an agreed upon time. The process is fast, simple and affordable. A 20-yard dumpster costs \$450 to rent for 14 days. A 30-yard dumpster costs \$550 and a 40-yard dumpster costs \$650.

?Reed Maintenance Services, Inc. has always provided us with great, timely services,? says a 5-Star review from a customer named Florence. ?We wouldn't go anywhere else for our dumpster rental service. Our property rehab jobs produce a lot of waste, and using Reed Maintenance Services, Inc. saves us a lot of time. We just fill the dumpsters and they pick them up and drop off another one if we need it. Excellent customer service, and they are quick to respond to any special needs we may have. We are very satisfied with them and recommend them.?

Another pleased customer, Gloria, says about Reed Maintenance Services, ?We were doing a total gut job for an apartment building consisting of 16 units. We needed the big guns. The 40-yard dumpsters. Reed Maintenance Services, Inc. is a well-known company with a huge inventory of 40-yard dumpsters, so we went with them. They always had supply on hand, and we never had to wait for a dumpster replacement. We filled them, they dumped them and replaced them until our job was complete. Very smooth and easy transactions, and great customer service. I highly recommend them.?
