

Price of a Vasectomy Reversal At Dr. Mark Hickman?s Office Among Lowest In Nation

February 07, 2023

New Braunfels, TX - February 07, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman, a surgeon based in New Braunfels, TX that specializes in vasectomy reversal, would like to inform the wider community about the procedures his practice performs and the all-inclusive cost of said procedures. Dr. Hickman?s work has allowed dozens of people to have children after having a vasectomy, and he offers this service at a much lower cost than most ? with no hidden fees.

Vasectomy reversal is performed primarily on patients looking to have children, but the procedure is also sometimes used to try and combat male depression, something that a number of men report experiencing after the original procedure. Dr. Hickman has helped a number of men regain what they see as their lost virility, lifting what he refers to as the ?male fog.? Using a powerful operating microscope and nylon suture, Dr. Hickman performs dozens of microsurgical repairs every year. The procedure connects the ends of the vas deferens back together, using roughly 10-15 stitches to create a watertight seal and thus reverse the effects of a vasectomy.

The surgeon has been in the field for over two decades, rapidly approaching a third. Dr. Hickman?s clinic says, ?Dr. Hickman has more than 26 years of experience under his belt as a leading minimally invasive

surgeon. With more than 1,300 vasectomy reversals, Dr. Hickman has too many to count pregnancies! Dr. Hickman has "corrected" many vasectomy reversals from other providers as well with great success. Surgical procedures and results vary widely among providers. Patients from around the world trust Dr. Hickman because of his dedication, high success rate and bedside manner. Be thorough and sure in your decision.?

Many people are aware that it is possible to reverse a vasectomy but the issue that holds them back from doing so is the cost. Fortunately, one of the factors that makes Dr. Hickman stand apart from other doctors in his field is the fact that he makes the procedure as affordable as possible in order to ensure that the procedure is available to anyone who wants it. He offers two all-inclusive options. The first is priced at \$3,300 and includes local anesthesia and an oral sedative while the second is priced at \$4,200 and is performed under IV sedation (which is administered by a board-certified anesthesiologist). People come from far and wide to seek out Dr. Hickman's affordable, effective vasectomy reversal procedures, with some flying across the country just to see the doctor.

Dr. Mark Hickman is a respected expert in the field of laparoscopic procedures, and he has, over the years, invented a number of surgical instruments and even been awarded a patent. He is recognized as being one of the major contributors to several minimally invasive patents. His New Braunfels practice opened in 1988 and has been helping people conceive ever since.

A number of people who have visited Dr. Hickman's practice have left excellent reviews praising the team's commitment to producing excellent work. Sheilah Bradley, the wife of one of Dr. Hickman's patients, says about her and her husband's experience, "Doctor Hickman performed my husband's vasectomy reversal in March of 2020, 10 years after his vasectomy, and we conceived a few months later. My daughter arrived a little early, but our original due date was exactly one year after surgery. Dr. Hickman and his staff were all very knowledgeable and friendly, and the procedure itself was very affordable. We're obviously thrilled with the outcome!?"

Jamie Deering similarly says, "My husband and I made a road trip from MN to see Dr. Hickman for a vasectomy reversal back in 2012. We ran into car trouble on the way there and had to call to figure out how we'd make the surgery. He had plans the next day, but rearranged his schedule and still made time to see us! We even needed to bring my 2-year-old son, and one of his nurses entertained him so I could be with my husband during the surgery. The reversal went pretty smoothly, and I'm happy to say that 4 1/2 years later my husband and I were able to naturally conceive children. I'm grateful for this team and highly recommend them!?"

Those interested may visit Dr. Hickman's website to learn more about the low price of a vasectomy reversal at his practice. He can also be reached over the phone or via email.
