

EPS Landscaping & Tree Service Offers Cost Effective Landscaping Services Suitable for Pembroke Pines and South Florida

February 06, 2023

Pembroke Pines, Florida - February 06, 2023 -
EPS Landscaping & Tree Service LLC wants to emphasize that they are offering cost effective landscaping service in Pembroke Pines, including Broward County and the whole South Florida Tri-County area. Broward County is one of the counties in South Florida with tropical climates and as such, various exotic plants commonly found in the jungles and rainforests can provide astounding and unique landscapes for homes in the area. Being a family-owned and operated business with more than 20 years of experience in the industry, they are familiar with the kinds of plants and trees to use in Pembroke Pines landscapes.

Greg O'Connell, co-owner of EPS Landscaping & Tree Service LLC, says, ?We pride ourselves in servicing the South Florida Tri-County area for all lawn care, landscape design, tree trimming, tree installation or removal, irrigation and pest/weed control needs. We have striven to build a company which provides service of the highest quality, pays particular attention to detail and keeps the lines of communication with our clients open, honest, clear, and concise. Our mission at EPS Landscaping & Tree Service LLC is simple. We value your time and money. We will do everything possible to ensure you are satisfied with the services we provide you on a timely, professional and courteous manner.?

Tropical landscaping design, which is suitable for Florida?s humid subtropical climate, is one of the services homeowners in Broward County can expect from EPS. This kind of landscape will require a lot of tropical plants. This kind of landscaping may be more difficult to map out when compared to other kinds of landscaping because it will need the use of plants that require varied ways of care. For example, the distance between plant pots and also the amount of sunlight that each particular plant gets will need to be taken into account. Tropical landscaping will commonly involve: lava rock; water features like a small waterfall or a pool; huge and vibrant leaves; and island decor such as hanging lights and tiki torches.

They can also provide landscaping services for commercial establishments in Pembroke Pines and Broward County. These include: pool landscaping; hardscaping; tropical landscaping; and landscape maintenance. This includes the appropriate use of trees for the landscaping. Trees are not just appropriate for making the landscape more attractive but there are also several benefits provided by trees. These include: reducing stormwater runoff, habitat creation, air purification, carbon dioxide fixation for photosynthesis, and noise reduction.

They want to point out that there are various factors that differentiate their services from those offered by similar providers in the area. First of all, they provide tailor-fitted landscape design that is heavily based on the ideas of the client on how the landscape should look. Second, they will apply innovative ideas to provide a functional space that will both look astounding and cool. Third, they will apply a color scheme for the landscaping, carefully choosing the different plants and flowers to include in the landscape, after consulting with the client. Fourth, they will ensure that the most affordable way of achieving the desired landscaping is used.

EPS Landscaping & Tree Service is a family owned and run company that has been providing lawn care, landscaping, and tree care services in the Broward County area for over 20 years. They always do their best to provide the most affordable prices possible while ensuring that the quality of their services is not negatively affected. Their services are provided in Broward County, including Hallandale Beach, Hollywood, Southwest Ranches, Dania Beach, Fort Lauderdale, Coral Springs, Pembroke Pines, Pompano Beach, and Deerfield Beach.

People who are interested in landscape design services in Pembroke Pines and in other areas in Broward County can check out the EPS Landscaping & Tree Service website or contact them on the telephone or through email. They are open from 8:00 am to 6:00 pm, from Monday to Friday, and from 8:00 am to 3:00 pm

on Saturdays.
