

Superior Restoration Expands Water Damage Services To Riverside

November 30, 2015

November 30, 2015 - PRESSADVANTAGE -

Superior Restoration, a business in Temecula, CA, has announced that they have expanded their services to also reach the Riverside, CA area. As an established and highly respected water damage restoration company, the Riverside community have welcomed their services with open arms. Full details about the work that the company does are available through <http://www.superiorrestorationriverside.com/water-damage-restoration-services/>.

"We have been working across Temecula for many years," says Skylar Lewis from Superior Restoration. "During that time, we have established fantastic relationships with our many customers and we really couldn't have gotten to where we are today without their continuing support. We are happy to say that we are now further expanding our operations to Riverside. Naturally, we will continue to offer the same high quality and professional work and fantastic customer service."

To keep clarity of service in mind, the business has also launched a brand new, separate website for their Riverside services. This website is fully optimized and modern, as well as being mobile responsive. It includes an easy to use 'contact us' area, available through

<http://www.superiorrestorationriverside.com/contact-us/>. The company is open 24/7, as they also offer emergency repair services. The website is constantly manned, but people can also choose to either email or telephone the company in case of an emergency.

Superior Restoration provides, as stated, an emergency response service. Besides this, they provide water removal, cleanup, and restoration services. Their work has been very positively reviewed by their customers. "These guys are awesome," says Jason P. from Newport Beach. "We had a flood in our house and they handled everything from packing up our belongings, drying out our home and restoring our home to its original state, like nothing ever happened. They were very professional and brought our home back to normal in the time that they promised. I highly recommend them for all your restoration needs."

Many homeowners may not be aware that if their home gets any significant amount of water from a leaking pipe or leaking roof, there are some serious consequences that can occur to both the home and also the health of the inhabitants. Water that is not thoroughly removed can cause the growth of mold which can cause structural damage as well as pose a serious health risk to anyone living in the structure. It is strongly advised for property owners to not attempt to do the water removal on their own and instead utilize the services of a professional water remediation company such as Superior Restoration. They have the equipment necessary to thoroughly remove the water and prevent further damage.

The company also encourages everybody to give them a 'Like' on Facebook through <https://www.facebook.com/superiorrestoration>. This offers people an opportunity to ask questions and join in conversations. Additionally, the Facebook page is used to keep people informed about industry news, special offers and discounts.
