Electronic Merchant Systems Introduces EMS Agent Program in Wisconsin

February 13, 2023

Cleveland, Ohio - February 13, 2023 -
Electronic Merchant Systems (EMS), a company based in Cleveland, OH, is pleased to announce that they are now offering the EMS ISO Agent Program in Wisconsin. This merchant services program is for agents who are interested in achieving verticals and in diversifying their merchant portfolio in Wisconsin. Those who become credit card processing agents for EMS can benefit from a number of things, such as: access to the most sponsor banks; daily residuals; a dedicated relationship manager; total transparency; and 24/7/365 support based in the US. Those who are interested in the agent program in Wisconsin can visit https://www.emscorporate.com/merchant-services-iso-agent-program-wi.

A spokesperson for EMS says, ?Perhaps, you are tired of going after the same type of merchants? Is it frustrating not to be able to get into challenging verticals that can help you increase your residuals and improve your portfolio? If you're ready to be a leading Merchant Services Agent in the payment industry, then the EMS ISO Agent Program can help you. At EMS we put Agents First. We are committed to your success and will work with you to make sure you have every opportunity to close more deals and become a payments industry leader.?

Credit card processing agents with EMS can offer their clients different kinds of products and services, including: credit card not present alternatives; mobile pay solutions; near field communication options; innovative POS solutions; virtual terminals; online payment gateways; and credit card terminals. In addition, an EMS merchant services agent will receive important knowledge with regards to the ins and outs of the payment industry because of the availability of an informative newsletter regarding webinars and training. The industry-leading payment processing products and services of EMS, including NFC/EMV payment options, mobile card readers, online payment portals, and virtual terminals, can enable agents to take their merchant services business to the next level.

In addition, the daily residual program of EMS enables agents to dip into their earnings whenever they need

them. Agents can get hold of their residual income as soon as their client merchants have started their payment processing. Merchant services agents with EMS are given the chance to become a registered ISO. It is important to note that attempting to become a registered ISO on their own can be quite costly and the process can be quite difficult. But with EMS, the company can provide the knowledge and experience to help agents achieve their goal of becoming a registered ISO. And as an EMS ISO agent, a merchant services agent would be able to close more deals because EMS has established connections with more sponsor banks than any other agent program. It is due to their connection with more sponsor banks that EMS can make it easier to look for a processing home for those clients that are difficult to place.

The spokesperson adds, ?Working as an ISO is a fulfilling career. You have the freedom to grow your business and target the clients that best help your portfolio; whether they are e-commerce, retail, or businesses in a challenging vertical, you control how your portfolio is built. With one of the leading payment processors, such as EMS, you can take your merchant services business in Wisconsin to the next level.?

Launched in 1988, Electronic Merchant Systems has earned the distinction of being a top national payment processor and merchant services company with more than 30 years of experience in payment processing. They have already assisted local businesses in boosting their profit by enabling them to accept card payments, such as electronic bank transfers, all credit cards, all major debit cards, stored-value cards, and electronic check services. They have already helped tens of thousands of Internet, start-up, and retail businesses in different places in the country. Approximately 95 percent of EMS customers have already enjoyed the large savings from a rate review. EMS has 11 regional sales offices in major cities in the US and EMS has a presence in more than 100 cities.
