

Dr. Mark Hickman, Who Offers Affordable Vasectomy Reversal Cost, Gets Another Highly Favorable Review

February 15, 2023

New Braunfels, TX - February 15, 2023 -
Dr. Mark Hickman, MD, FACS, a vasectomy reversal surgeon in New Braunfels, TX, who has sought to offer affordable all-inclusive options for the vasectomy reversal procedure in New Braunfels, is proud to announce that he has been receiving more highly favorable reviews. The patient was very pleased about the two available all-inclusive options: $3,300 for the procedure with local anesthesia and an oral sedative and $4,2000 for the procedure with the patient under IV sedation administered by a board certified anesthesiologist. Currently, Dr. Hickman has an overall rating of 4.8 out of 5 stars on Google.

In a recent five star review, Billie D. says, ?Coming to the decision to have my vasectomy reversed was not an easy one. Originally I was going to return to the urology clinic who did my vasectomy, one of the biggest in San Antonio. I didn't have the greatest experience there so I was still looking around. Through family friends I heard about Dr. Hickman and how happy they were with his work. I love that you have the option of general anesthesia or local anesthetic. The price for the experience of the Doctor and staff is unbeatable in my opinion. They also said a short prayer before the procedure which I personally really liked. I went with the local anesthetic and it wasn't bad at all, not much worse than the original vasectomy. The doctor also walks you through the steps while they play calm music in the background. My wife was with me the whole time,

even having the option of viewing the procedure, which she did not haha. All in all I would highly recommend Dr. Hickman. I was very fortunate we were only 30 minutes from him but I would gladly travel for this level of care.?

Dr. Mark Hickman has achieved a reputation of being one of the premier microsurgeons in the country. Currently, he has over 26 years of experience and he has performed more than 1,300 vasectomy reversals and also ?corrected? some vasectomy reversals performed by other providers. He believes that the procedure can also be beneficial for the mental health of some men, especially those who felt they were pressured by their partner into undergoing the procedure.

Meanwhile, Dr. Hickman also wants patients from other places aside from New Braunfels and even from other states to come to the tourist town. And aside from benefiting from the affordable price of a vasectomy reversal, patients from out-of-town can also take advantage of the special arrangement Dr. Hickman has made with the local hotels where his patients can get a 50 percent reduction in the cost of their hotel stay. And with two of the most beautiful rivers running through New Braunfels, out-of-town patients can enjoy some of the activities available, such as extensive rafting, swimming, fishing, tubing, and more in the area. Also found in the area is Schlitterbahn, which is the biggest water park in the country that offers a whole day of entertainment for people of all ages. Also close by is the Natural Bridge Caverns, which is only 10 miles from New Braunfels. Also nearby is the quaint town of Gruene, with its range of restaurants and more than 20 shops.

Dr. Hickman completed his residency training in general surgery within 5 years at the University of Texas Health Science Center at San Antonio. And it was during this time that he came to know about the microsurgery techniques used by plastic and reconstructive surgeons. Realizing the potential of the minimally invasive procedures to offer better experiences and results for his patients, he decided to focus more on learning the microsurgery procedures.

Those who are looking for a dependable surgeon capable of reversing a vasectomy at an affordable price can check out the Microsurgical Vasectomy Reversals by Dr. Mark Hickman website or contact them on the telephone or through email. They are open from 8:30 am to 5:00 pm, from Monday to Friday.
