

Frankston Conveyancer Adds Conveyancing Fees Calculator on its Website

February 13, 2023

February 13, 2023 -
VIC-based LEAD Conveyancing Frankston announced on Friday that its website would soon have a free online calculator for clients to instantly know the price of its legal assistance. The online free conveyancing fee calculator is a tool used by conveyancing firms to showcase the costs of their services online without any possible hassle to interested people that might soon be prospective clients. For more information about LEAD Conveyancing Frankston, visit their official website.

The free calculator provides a conveyancing quote free of charge, which eliminates the burden for clients to travel long distances at long hours to know the costs of the firm's conveyancing services. This project was one of the firm's plans last 2022 but did not come to fruition due to the workload volume and its IT department's occupation on other significant matters, such as upgrading its site for client satisfaction.

The said calculator will be available on any day of the first week of February. It will provide free quotes for the firm's legal services, such as property buyers, sellers, transferors and people that seek contract of sale

drafting or review. The free quote will show a detailed breakdown of the costs of the transaction by category. It will also provide an estimate of the costs of third-party fees like certificates and statements from local councils.

LEAD Conveyancing Frankston Legal Director and Solicitor Trinh Thai, a licensed lawyer for many years, stated that the new website feature is one of the things she always desires to accomplish since she established her firm. "The thing is not new to me since I have encountered it in the conveyancing companies I have worked at before building my firm. I always wanted to have it on our website, but fate did not want it yet for us last year. Now that we finally have an opportunity to work on it, we did not waste any time. We immediately devised plans to execute it and share it with the people as soon as possible. After all the hardships, now we are here."

The firm's legal services are available in existing houses, off-plan properties, apartments or units and vacant land. All types of properties are affordable whether clients are buyers or sellers. Requesting a free conveyancing quote using the free calculator is simple; site visitors only need to fill out details and click submit. After that, a free quote will be sent to their email address in less than a minute, faster if they have better internet access.

The firm hopes the tool will benefit them in gaining more clients and building a good reputation across Victoria. They want to double their profit this year compared to their profit in 2022, and launching the free calculator is their first step in achieving it. They expect a good outcome once they make it accessible to the public. For interested people who want further details about the company's range of services and operations across Australia, visit the official LEAD Conveyancing Frankston website.
