

Towson Roofing Pros Is Offering Ice and Water Barrier Installation Services in Baltimore and Nearby Areas

February 24, 2023

February 24, 2023 - PRESSADVANTAGE -

Baltimore roofing contractor Towson Roofing Pros has announced that it is now offering ice and water barrier installation services to the city's property owners.

Ice and water barriers are waterproof membranes that prevent water from seeping from the roof into the building's main structure. They are manufactured in an easy-to-use adhesive format that can be applied almost like duct tape. The membrane, which is made from polymer-modified bitumen, can be used to create a watertight seal in areas where the water is most likely to collect and drip through. While it is not recommended to cover the entire roof surface with them, they can be a cost-effective way of fortifying a home against heavy rains or snowfall.

The spokesperson for Towson Roofing Pros talks about their installation process by saying, "For us, ice and water barriers are a great way to ensure that our customers' homes stay watertight. Since they adhere to the roof's underlayment, any water that sneaks past the shingles is prevented from entering the roofing materials

and causing damage. It creates a dam-like structure to give your home a fighting chance when mother nature is disgruntled. As experienced roofers, we also understand the risks involved with relying too much on ice and water barriers. In fact, if you cover up every inch of the roof, it creates a ventilation problem that causes condensation and, ironically, also leads to water damage. So, you really need the keen eye of expert roofers, such as our crew at Towson Roofing Pros, to get the most out of ice and water shields.?

Towson Roofing Pros serves all of Greater Baltimore including Towson, Lutherville-Timonium, Cockeysville, Hampton, Carney, Parkville, Brooklandville, Pikesville, Owings Mills, Reisterstown, and Yorktown. The company?s range of roofing services includes residential roof installation and repair, commercial roof installation and repair, torch down flat roofing including TPO and EPDM, gutter and downspouts, roof inspections, and much more. Its roofers are adept at working with all types of popular roofing materials including metal, tile, asphalt shingle, flat roofs, rubber roofs, and single-ply membranes.

Towson Roofing Pros? beloved high-quality roofing services begin with a phone call. The company?s expert roofing technicians show up at the client?s doorstep and determine the size and scope of the roofing problem that needs to be fixed. The crew will patiently listen to all the customer?s concerns and answer questions to put them at ease. Once a detailed plan is created, clients are given an estimate for the task that includes the cost of roofing materials from the best manufacturers in the industry. The company will then regularly update the client on the progress of the repair or installation, ensuring full transparency throughout the process.

Several customers have shared, in their own words, just how friendly and easy to work with the staff and crew at Towson Roofing Pros is. The company has a perfect overall 5.0 rating on its Google Business Profile with reviewers especially praising its customer service and affordable pricing. One reviewer says, ?These guys were professional. The work and cleanup were done timely and they kept me up to date throughout the process. It's the kind of work you don't mind paying for. Thanks, Towson Roofing.?

Another customer talks about their experience with Towson Roofing Pros by saying, ?We had a leak in the ceiling of a house we were renting out and needed to get a new roof. If you're looking for an excellent contractor, this is the firm to contact. They arrived on time and provided us with a comprehensive report of all the repairs that would be required on our old roof. We were ecstatic to have the roof fixed and they came out immediately. We couldn't be more pleased with how it turned out and would recommend them to anyone in need of a new roof.?

Readers in Baltimore looking for highly-rated professionals to install an ice and water barrier in Towson MD can contact Towson Roofing Pros at (410) 489-1503.
