Mueller Memorial Introduces Interra Green Burial - A New Environmentally Friendly Burial Option

February 14, 2023

February 14, 2023 -
Paul, MN - Mueller Memorial, a leading funeral and cremation provider for 75 years, has announced the launch of Interra Green Burial, a new service designed for environmentally aware people who want to plan their own funeral or that of someone they love with a green alternative.

Interra Green Burial offers a true green burial experience that does not use any chemical preservation of the deceased and only uses natural, biodegradable materials. The burial process involves using only easily degradable natural clothing and fibers and a biodegradable casket or shroud for the deceased.

According to Scott Mueller, owner of Mueller Memorial, "we are committed to providing a range of funeral and cremation options to meet the diverse needs of the Twin Cities. Interra Green Burial is a new service that caters to people who want to leave this world without leaving a footprint. We are proud to be able to offer this environmentally friendly option to those who care about the planet and want to minimize their impact on the environment."

Interra Green Burial is a way for individuals to make a conscious choice to reduce their carbon footprint and leave a legacy of environmental awareness. For more information on this new service, please visit www.InterraBurial.com or contact Scott Mueller at Scott@MuellerMemorial.com.
