

eDental Perth Offers Wide Range of Dental Services, from Dental Implants to Cosmetic Dentistry

February 21, 2023

February 21, 2023 -
eDental Perth, a dental practice serving Perth, WA, Australia, wants to point out the wide range of dental services they provide, ranging from dental implants to cosmetic dentistry. They also provide emergency dentistry, dental crowns, general and family dentistry, wisdom tooth extraction, and root canals. The practice is centrally located on the Great Eastern Highway in Rivervale, between Belmont and Burswood. There are plenty of free, off street parking for all of their patients. And they want to emphasise that they are gentle and caring dentists and they have a team who are trained in helping patients reduce their fears or anxiety with regards to the dental treatment.

Kaitlin Hampel from eDental Perth says, ?We are conveniently located in Rivervale / Belmont, just five minutes east of the Perth CBD, and two minutes from the Crown Casino ? When you are in need of a caring and gentle dentist for your cosmetic dentistry needs, we are not far away. There is plenty of free parking available, so you don?t need to worry about driving around in pain searching for a parking spot, or having to pay for the pleasure.?

They offer both single teeth and All-on-4 dental implants. For a single tooth missing, they will place a titanium screw implant on which dental crown is attached on top and this will look and function like a real tooth. All-on-4 is for those situations when several teeth are missing, such as a whole row of teeth. They will place four implants that will serve as the main anchors for a new denture that will look and function like real teeth.

And this dental clinic in Perth also provides cosmetic dental treatments to provide the patient with a great smile. A cosmetic dentist can help with a number of problems, such as: dental crowns and bridges; dentures - whether partial or full, metal or acrylic; and grinding - bite splits or mouthguard protection and educational brochures.

eDental Perth offers various kinds of cosmetic dental treatments, such as: Invisalign; dental implants; dental veneers, crowns, and smile design. Invisalign treatment makes use of virtually invisible aligners that are fabricated from thermoplastic material. A series of Invisalign aligners are tailor-fitted for the patient for the purpose of gradually moving the teeth to their proper positions. Each aligner is designed to make slight movements for the teeth and the whole process is mapped out by the dentist is advance. After about two weeks, the teeth will have moved and ready for the next aligner, and this will continue until the teeth straightening process is complete. The duration of the whole process will actually depend on the severity of the case but the average case will take about 12 months for adults.

They can also provide dental crowns, which are made by advanced dental technicians at eDental Perth. The dental crown functions as a cap or helmet to protect the tooth by exposure to too much plaque and also from adjacent teeth. They want to emphasise that they always ensure they provide the highest quality dental crowns, which is why they only provide crowns that have been fabricated in a local dental laboratory. The crowns can be made from various kinds of materials, including porcelain and porcelain fused to metal, zirconia, and gold.

Established in 2018, eDental Perth is a dental clinic found in Rivervale, WA. The clinic has a team of qualified, experienced, and friendly staff who are ready to spend all the time required to completely understand the patient?s concerns and expectations. By applying a top down approach, the dentists at eDental Perth always prioritise their patient?s needs and always ensure that the dental treatment is performed with a gentle and caring attitude. Before beginning any dental treatment, they will always discuss the patient?s medical history, goals, and concerns first.

When looking for a dependable dental clinic Perth residents can visit the eDental Perth website or contact them through the telephone or via email. They are open from 8:00am to 8:00pm from Monday to Sunday.
