

Roofing Contractor Serving Austin Texas Offers Free Roof Inspection

February 21, 2023

February 21, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing, a company based in Austin, TX, is offering a free no-obligation roof inspection for homeowners and other property owners who are concerned about the possibility of roof leaks and other potential issues. A trained and experienced Mighty Dog Specialist will provide the home with 25-point inspection to determine any exterior problems that may exist across the whole exterior of the home, including the roof, gutters, windows, and sidings. After the inspection, they will provide the homeowner with a comprehensive report on the condition, age, or weather damage that could cause problems with the roofing and exterior system. They will also prepare a tailor-fitted recommendation for any repairs or replacements that may be needed by the exterior.

Ryan Scherer, co-owner of Mighty Dog Roof of North Austin, says, "This Mighty 25 Inspection is only available through Mighty Dog, and is one of the things that sets us apart in the exterior industry. Our comprehensive 25-point inspection is absolutely free and involves no obligation to purchase anything. We are providing you the information you need to maintain your property for years to come. With our thorough inspection, we look for loose or missing shingles, loss of granules, or any hail or wind damage that will compromise your roofing system. We also look for any blistering due to moisture buildup or bad ventilation."

The 25-point inspection provided by Mighty Dog Roofing of Austin Texas includes: eaves and rakes inspection; drip edge inspection; inspection of valleys; roof edging inspection; nail head inspection; inspection of step and counter flashing; inspection of roof sheathing or decking; roof ventilation and exhaust system inspection; hip and ridge inspection; soffits and fascia inspection; inspection of gutter aprons; gutters inspection; plumbing stack inspection; chimney inspection; inspection of furnace caps and pipes; window inspection; inspection of AC unit exterior; inspection of siding; downspouts inspection; foundation drainage inspection; inspection of storm damage caused by the wind; inspection of storm damage caused by hail; attic inspection; ventilation inspection; and inspection of skylights.

In addition to roofing services, Mighty Dog Roofing also offers rain gutter installation services. Gutters are important because they can help prevent costly roofing repairs in the future. These gutters can be custom-fitted for each specific customer and constructed in such a way that they will blend seamlessly with the soffit and fascia of the home, providing more rigidity and strength.

They can also provide maintenance-free siding installation. This provides a number of advantages, including: better energy efficiency with lower electric bills; enhanced aesthetics for the home; improved structural integrity of the home; and higher market value of the home. And it has been noted by Remodeling Magazine that homeowners have been able to recover 92.8 percent of the cost of the siding replacement.

There are a number of things that make their roofing services distinctive from that of the other service providers. They provide a drone sky view of the client's home, which uses innovative technology in providing non-biased reporting. This kind of reporting is also approved many insurance companies when it comes to claims. And realtors also prefer the kind of reporting provided by the drone sky view because it provides a visual confirmation that the roof is in good condition before a sale.

Another important distinction is their customer vault, which makes sure that the various details about the home's exterior are kept securely. This includes photographs, the products used, and the various warranties.

Mighty Dog Roofing of North Austin is locally owned and operated by Ryan Scherer and Crystal Palmer, who have been together for more than 15 years and both have experience with many aspects of running a business. They are looking forward to investing more in the Austin community by partnering with Habitat for Humanity to promote and help with the construction of homes for those who are in need and also volunteering to help Austin Pets Alive for the benefit of their furry friends in the area.
