Roofing in Torrington CT Company Continues to Give Back to Its Community

February 28, 2023

February 28, 2023 -
SJ Winn Construction, a respected roofing contractor in the Torrington and Winsted, CT areas, is known for combining quality work with excellent customer care. But those are not the only traits that this highly-rated roofing services provider is well known for. It's also a company that takes pride in giving back to the community it serves. Evidence of this can be seen with SJ Winn Construction?s recent ?networker sponsorship? of the Winter Meet & Mingle for a Cause event that was held on January 24th, 2023, at the North House in Avon, CT.

The company owner, Scott Winn, says, ?A huge part of who we at SJ Winn Construction are as a company is our commitment to giving back to the communities that we serve. After all, without the support of those very same communities, we would not be in business. It?s why we are so happy to be a significant sponsor for such charitable events as the recent West Hartford Winter Meet & Mingle for a Cause.?

Winn went on to say that this was an important SJ Winn Construction sponsorship opportunity because the proceeds from the event go to help fund the Friends of Feeney (https://www.friendsoffeeney.com/meet-mingle-for-a-cause/) non-profit. An organization that is well known for

helping children and families who need assistance and support after heartbreak and tragedy. He added that no amount of money can ever help someone erase extreme heartbreak, especially with children, but it can help ease some of the other financial burdens that are born out of tragedy.

This event totaled almost $14,000 in immediate donations to go along with pledges for some $100,000 more. SJ Winn Construction?s owner says this is a great example of the character of the people in the West Harford area. He added that they will continue to look for ways to help in the community whenever an opportunity such as this one presents itself.

Besides taking pride in giving back to its community, SJ Winn Construction also offers a wide variety of roof repair and storm roof restoration services. The most popular of which is the company?s whole roof replacement work. Winn stated it?s the best way to make a worn, damaged, or aging roof look great and be watertight again. A process that begins with a thorough inspection, an accurate estimate, and the ordering of the highest quality roofing supplies. Once the shingle or other roof covering has been removed, an assessment of the roof support structure will take place before a new roof underlayment and roof covering are laid down.

The company owner says that no roof replacement work that they do is ever considered to be complete unless the work area looks like they were never there. They also take pride in standing behind the stated manufacturer?s warranties on the roofing products they supply. He added that no roof repair work that they do is ever too big or too small for them to take on. Because of that, they have no problem doing something like replacing a few shingles that have blown off during a storm or restoring the roof of a large home that has received major structural damage in a storm.

Those in West Hartford that have taken advantage of the premier roofing services that SJ Winn Construction Offers often praise the company?s efforts in the reviews that they leave. A recent example of which states, ?A++. SJ Winn Construction is the Best of the Best! My husband and I recently built a house. Scott and his crew installed our new roof. We were 100% satisfied with his professional service, knowledge of products, time management, and flexibility. He spent extended time with us discussing and showing us colors, materials, and different options to choose from. Scott communicated with us throughout the process and informed us as things progressed. We would highly recommend SJ Winn Construction for your roofing needs! Thanks, Scott!?
