

New, Used & Refurbished Office Furniture Available At NJ Store

March 03, 2023

March 03, 2023 - PRESSADVANTAGE -

NJ based PTI Office Furniture is offering a range of new, used and refurbished office furniture to businesses in Ridgefield and beyond. The store is widely recognized for its unyielding standards when it comes to quality, and items are available at a range of price points.

PTI Office Furniture considers it their primary goal to simplify the shopping experience for the average customer. Where other retailers may attempt to lead customers to items they may not want or need, PTI's staff are trained to help customers find exactly what they are looking for. The store has implemented several measures in order to support this policy, and maintaining a high standard for all the products it carries is only one means by which they do this.

For instance, the company has also made it a point to develop professional partnerships in order to source virtually every item a customer may need. This extends past the variety of the items themselves, since any store would carry desks, chairs, filing cabinets and so on. PTI Office Furniture takes it a step further by

collecting unwanted or offloaded furniture that has already been in use ? and applying the same minimum standard of quality to ensure they are still fit for a new home. As such, customers can find either brand new or used versions of most pieces of furniture.

A review from one customer shares, ?I received a wonderful deal on a Herman Miller chair, top of the line. Carlos was very professional and gave us the time and patience to find the perfect seat for my desk. I highly recommend PTI.?

Another customer?s comments serve to illustrate how long the company?s commitment to quality goods and services has been established. ?I bought furniture from this company 20 years ago,? explains the customer. ?The furniture has stood the test of time. I purchased an oak desk and credenza. They are like brand new, still, to this day. This is why I am going back after all these years to purchase office chairs. The service was great then and left a lasting impression on me, and I am hoping to have the same experience again.?

PTI Office Furniture seeks to ensure that every customer has this impression by the time they leave the store. On every visit, a team of professional sales staff are standing by to assist with any questions or concerns, and they are trained to conduct themselves professionally while serving as a resource of information on every piece of furniture in sight. As such, customers are welcome to navigate the showroom floor in any way they see fit, such as by heading straight for the items they know they want or by seeking out a staff member to discuss their needs in greater detail.

Once a member of the team has been notified of the customer?s requirements, they will be able to make a series of recommendations to help target a search better. Here, even a simple description of the furniture the customer has in mind will be enough to start with. Once they arrive at the store?s range of available options, they can investigate each item?s strengths with a keener eye to come to a final decision.

?Office furniture is purchased to last years, and sometimes even decades,? notes PTI Office Furniture. ?They will be used by numerous individuals, sometimes get moved between different locations if the business moves and even be kept in storage for lengthy periods in certain circumstances. In most cases, therefore, customers come looking for pieces that offer a respectable compromise between comfort, longevity and price. Fortunately, no matter what you are looking for, PTI Office Furniture will have it ? and other options you had not even considered until you came across it in person.?

Customers looking for new, refurbished or used office furniture are welcome to contact PTI Office Furniture today to begin narrowing down their search. The store also offers exhaustive guides for prices and buyers on the official PTI Office Furniture website. Alternatively, customers may get in touch by phoning or emailing the

company directly.
