November 30, 2015 -
Phoenix, AZ company Hawkins Wealth Advisory LLC, which provides insurance plans and other financial products to people of high income levels, has recently started to offer Physicians & Surgeons High Limit Insurance. This particular insurance is targeted specifically at the medical profession. Full details are available through https://drive.google.com/file/d/0B5mut_8hx0vmNS15VUZ1d044enc/view?usp=sharing.

Robert E. Hawkins, founder of Hawkins Wealth Advisory LLC, says: "Traditional disability insurance has significant limitations, particularly for high earners. If someone wants to be compensated at 65% of their income, they will generally need more than one plan. This is why the Physicians & Surgeons High Limit Disability Plan was developed, as this addresses the high incomes of this specific workforce demographic."

The plan was developed specifically to meet the needs of physicians and surgeons. It has recently received Board Certification Recognition as well. Physicians who are Board certified will have had to undertake an additional three to five years of training in a specialty field of practice. This also implies that they hold highly intense jobs. As such, they are more at risk of developing certain disabilities as well.

As can be seen on http://www.hawkinswealthadvisory.com, Hawkins Wealth Advisory has a number of plans available suitable for very specific careers. This particular plan is for physicians and surgeons who are unable to work due to an illness or injury. "There are limits on our plan, but they are far higher than on any other form of disability insurance," adds Robert E. Hawkins. "The issue limit can reach $250,000 in monthly income replacement, and we offer participation limits of up to 75% of personal income and 100% business income."

People who work in specialty occupations often enjoy much higher financial compensation for their job. However, this means that they will also find it more difficult to obtain insurance to protect their personal and business finances. Hawkins Wealth Advisory LLC understands that an individual is their own financial powerhouse, which is why they offer so many very specific insurance plans. Full details are available through http://www.gbg.com/hawkins. "Physicians and surgeons can rest assured that we have their finances covered, Worldwise, 24/7, in or out of the office" adds Robert E. Hawkins.
