

# St. Johns Eye Associates Opening San Marco Office

*February 23, 2023*

Jacksonville, Florida - February 23, 2023 - PRESSADVANTAGE -

St. Johns Eye Associates announced the opening of a new office in San Marco Square in Jacksonville. This location will serve a high foot traffic area, bringing the respected St. Johns Eye Associates brand to the commercial San Marco Square. St. Johns Eye Associates is known for their high-end service and luxurious eyewear offerings, and the San Marco optical center is the latest in a recent string of expansions. The office will pair new state-of-the-art technology with a redesigned office featuring modern finishings and furnishings.

"San Marco Square is so classic, yet modern at the same time," said Sharokh Kapadia, O.D., owner of St. Johns Eye Associates. "It's an iconic area of Jacksonville that combines the best of both worlds. There's an eclectic edge, and it's very central. This location will be extremely convenient for patients who want to take care of their vision during a day of errands or shopping. They won't have to go out of their way to reach us, and when they're here, they'll get to enjoy our incredible eye care, comfortable atmosphere, and advanced diagnostic technology. Punctuality, convenience, and expert care are part of who we are, and it shows through our service."

The draw of the San Marco practice is that it's more accessible for people shopping in the area. St. Johns Eye Associates is Jacksonville's exclusive retailer for luxury eyewear brands such as Cartier and CHANEL®. Their immense selection of curated eyewear suits the commercial hub of San Marco Square, and St. Johns Eye Associates looks forward to contributing to the area's appeal.

"We know life gets busy, and we wanted to give our patients another easily accessible location to get great eye care," said Kapadia. "Our business is built around a simple concept: providing world-class service in a thorough and efficient manner. We take a lot of pride in working through complex issues in a short amount of time. It's why we have such a dedicated clientele, and we're excited to help even more patients."

As with all St. Johns Eye Associates locations, the office in San Marco Square will feature upscale interiors and advanced diagnostic technology, as well as fast and effective service.

“Every St. Johns Eye Associates office we open is the total package,” said Kapadia. “Nothing is more important to us than our patients’ health and comfort, which is why we constantly invest in cutting-edge technology. Even though we’re in a commercial district, this isn’t a mall shop experience: we deliver only the best for our patients, no matter where we’re located. Our staff are as ready as ever to help people find the perfect eyewear and can’t wait to meet new patients. When you come into our office, you’ll experience a welcoming environment backed by our professional and compassionate team who always make sure you’re comfortable. That’s how we do things at St. Johns Eye Associates.”

St. Johns Eye Associates will be located at 2039 Hendricks Ave Unit 213 in San Marco Square, Jacksonville, FL 32207. They will take appointments upon opening on March 6th for both current and new patients.

About St. Johns Eye Associates
