

# New Braunfels Surgeon Offers Affordable Reversal Vasectomy to Men Who Regret Having the Procedure

*February 28, 2023*

New Braunfels, TX - February 28, 2023 -
Dr. Mark Hickman, MD, FACS, one of the leading vasectomy reversal surgerons in New Braunfels, TX, is happy to announce affordable all-inclusive options for the reversal procedure, thus offering hope to vasectomized men who have felt like they are no longer whole and have regretted having the procedure.

Dr. Hickman often tries to convince men who are planning to undergo vasectomy to change their mind because he believes that unnaturally blocking the tubes that carry the sperm for the process of conception is not right. He is offering two all-inclusive options. The first option is priced at $3,300 for the procedure with an oral sedative and local anesthesia. The second option is priced at $4,200, which includes IV sedation administered by a board certified anesthesiologist.

Dr. Hickman has earned the reputation of being one of the top microsurgeons in the country, especially when it comes to vasectomy reversal. He has more than 26 years of experience and he has already completed over 1,300 vasectomy reversals and even ?corrected? some vasectomy reversals done by other providers.

He believes that the procedure can actually offer positive results not just for having the ability to have children again but also the patient?s mental health. Some vasectomized men had experienced depression and some have even contemplated suicide. This explains why Dr. Hickman has been active in vasectomy reversal ministries, trying to discourage men from undergoing vasectomy.

Meanwhile, Dr. Hickman also wants to point out that New Braunfels is a tourist town. He is inviting men from other places in Texas and also those from other states to come to New Braunfels and hit two birds with one stone. They can enjoy the sights and activities available in New Braunfels while also getting back their ability to father children. There are a lot of fishing, rafting, tubing, and swimming in New Braunfels, particularly because two of the most beautiful rivers in the country happen to run though the town. The town also has Schlitterbahn, the biggest water park in the US, offering a whole day of entertainment for people of all ages. Dr. Hickman has also made an arrangement with the local hotels in New Braunfels that allows his out-of-town patients to enjoy a 50 percent discount on the cost of their hotel stay.

The quaint village of Gruene is also found close to the vasectomy reversal center. This has several restaurants and more than 20 shops that visitors can buy various items. Visitors can also go to the Natural Bridge Caverns, which is just 10 miles away from New Braunfels. This is a living cavern that offers a number of attractions. In addition, San Antonio is nearby and offers the Alamo and the River Walk. The Alamo is, of course, famous for being the site of the 1836 Battle of the Alamo, which was an important event in the history of Texas. And the River Walk is a city park and a special-case pedestrian street in San Antonio. Along the River Walk, visitors can find a number of major tourist attractions, such as the Arneson River Theatre, Shops at Rivercenter, San Antonio Museum of Art, Hemis Fair Park, Marriage Island, Tower Life Building, and the Pearl.

Dr. Hickman finished his residency training in general surgery during a period of five years at the University of Texas Health Science Center at San Antonio. And it was during this period that he was introduced to the microsurgery techniques employed by plastic and reconstructive surgeons. Realizing how minimally invasive procedures can provide for much better experiences and results for his patients, he decided to focus more on the use of microsurgery techniques.

Those who are interested in learning more about the vasectomy reversal that is being offered at an affordable price can visit the Microsurgical Vasectomy Reversals by Dr. Mark Hickman website or contact them through the telephone or by email. They are open from 8:30 am to 5:00 pm, from Monday to Friday.
