

Veteran Owned Company Looking to Subcontract Work to Skilled Exterior Painters in Jacksonville FL

March 08, 2023

March 08, 2023 - PRESSADVANTAGE -

Saint Johns-based Skilled Craftsman Painters LLC is a veteran-owned company that has built a solid reputation for itself in the Jacksonville, Florida area. Much of this is due to this experienced painting contractor's attention to detail when on the job and its high level of customer service. This has created a situation where the demand for Skilled Craftsman Painter's services is at an all-time high. Something that the company wants to be fully prepared for as the busy spring exterior painting service is about to arrive. Because of this, the company has just announced that it's now looking to subcontract work to skilled exterior painters in Jacksonville, Florida. The company's managing owner, Ben Vangarde, says, "We are looking for experienced and professional painters to help us provide the community with unmatched service and a superior final product." Qualified painters looking for painter jobs in Jacksonville, FL should schedule a call with Ben via his website.

Mr. Vangarde says that it's important that any subcontractor they work with share his company's same attention to detail as they work. Something that creates a win-win situation for everyone involved. He owner added, "Our company appreciates the opportunity to support other local businesses by working with high-quality subcontractors. It's a triple win. Our painters win because we pay them well and keep their calendar full of work, the customer wins because they receive excellent service, and we win because our reputation continues to be strong in the community."

It's a reputation that he says continues to see them receive many 5-star reviews such as the following where a customer in Julington Plantation proclaimed, "Our experience working with Skilled Craftsman Painters was very professional from beginning to end. We worked with Ben, and the estimate process was far more thorough than we've seen in the past. He stayed in constant communication about the next steps and followed through with every step that was promised. We highly recommend this company for your exterior home painting project."

Ben then went on to talk about some of the qualities that have made his company one of the most sought-after exterior painters Jacksonville. Something that starts with the courteous way that the staff at Skilled Craftsman Painters exhibit from the first contact with a customer until an exterior painting project is completed. Most of the time an experienced representative who's also a good listener will meet a client at their home to inspect the exterior area that needs to be painted, go over with the customer their options for doing so, and to ensure that each customer gets a thorough and accurate estimate.

The owner also stated he realizes the importance of the latter because no customer likes to have any money added to the bottom line of the estimate that they were given when it comes time to pay the final painting project invoice. It was also brought up how versatile they are when it comes to meeting their customers' painting demands. He mentioned that's a trait that lets them satisfy clients in all different types of exterior painting situations. His crews are also known for being punctual on every workday and when a job is finished, they will leave the work site clean and orderly. He also believes in running a company that has a reputation for being honest, uses only the highest quality painting products, and fully stands behind the exterior painting work that they do. This is why every painting project they take on is backed up by a two- or five-year warranty depending on which paint tier a customer chooses to go with. A rare comprehensive type of warranty because of the way that it covers both materials and labor.

Those that would like more information on the exterior and other painting services that this house painter Jacksonville, FL offers can contact them by phone, email, or by filling out the form that's found on its website. Ben pointed out that they are proud to provide superior quality painting services to those in such Jacksonville communities as Julington Creek, Bartram Park, and Durbin Crossing, Ponte Vedra, Nocatee, Orange Park, Fleming Island, and Saint Augustine.
